

2013 WATER GARDEN PRODUCTS CATALOG

1.866.877.6637
www.aquascapeinc.com

WELCOME

Welcome to the 2013 Aquascape product catalog. You will notice that everything Aquascape has to offer is now in one catalog making it easier to find the products and tools that you will need to create the ultimate water feature.

In the past, consumers and retailers did not have easy access to everything Aquascape has to offer. We want to make it simple for everyone to have access to the complete Aquascape product line including our complete line of AquascapePRO contractor grade products. AquascapePRO products include some cool and innovative features not found in our traditional Aquascape line.

Aquascape products are available through traditional retailers, local contractors and through internet resellers. If you have trouble finding a local Aquascape retailer please visit our web site at www.aquascapeinc.com for a complete listing.

Aquascape's passion for water features is second only to our passion to help you succeed in building, maintaining and creating low-maintenance beautiful water features. One thing we've learned after 22 years of creating low-maintenance water features is that **keeping it simple is the key to long-term success**. That is exactly why we package our best-selling components together in complete kits. Everything you need for successful water feature installation is packaged in one box saving you the time, effort and money of trying to piece together mismatched components.

Our ultimate goal is to make sure that you are successful, whether you are reselling Aquascape product or creating a beautiful water feature yourself. We hope that this catalog, our complete water feature kits, and educational tools help map out your success with water features.

Carpe diem!

The Pond Guy™
Welcome

GET YOUR FEET WET

with affordable water features that change people's lives.

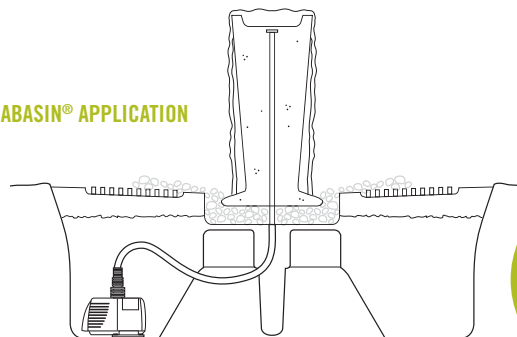

Water features make up one of the most diverse categories in the green industry today! There is no other type of landscaping that makes as dramatic of an impact on an outdoor living space.

With three different types of basic water features to choose from there is certainly a style that will fit your taste, as well as a size that fits into any landscape.

Fountainscapes

- Fountainscapes are the easiest and most economical way to add the sights and sounds of water to the landscape without the big investment or the space needed for a larger water feature.
- A fountainscape consists of a decorative fountain positioned atop an underground reservoir that stores the water. A recirculating pump located in the reservoir pumps the water up through the fountain where it bubbles over the top and cascades back into the reservoir.
- A fountainscape designed alongside a patio or deck can add a whole new dimension to any outdoor environment.

AQUABASIN® APPLICATION

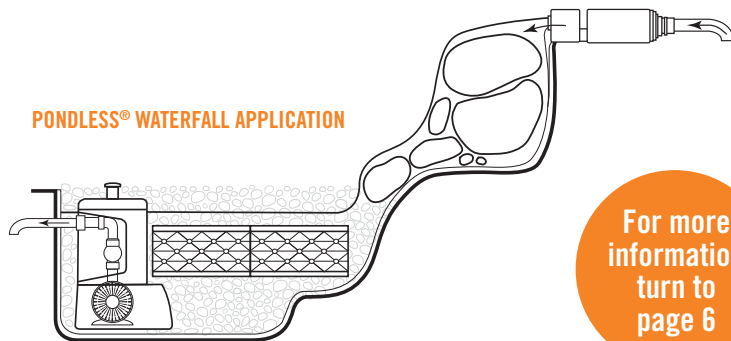

For more information turn to page 59

Pondless® Waterfalls

- Waterfalls and streams are undoubtedly the most aesthetic and favored feature of a water garden.
- If your customer's main interest in a waterfeature is the sight and sound of flowing water, then they'll want to go Pondless®! The name basically explains it all. A Pondless® Waterfall is a waterfall and stream, without the pond. A pumping system recirculates the water over the waterfall where it disappears into an underground reservoir.
- The Pondless® Waterfall provides a unique way to incorporate moving water into the landscape.

PONDLESS® WATERFALL APPLICATION

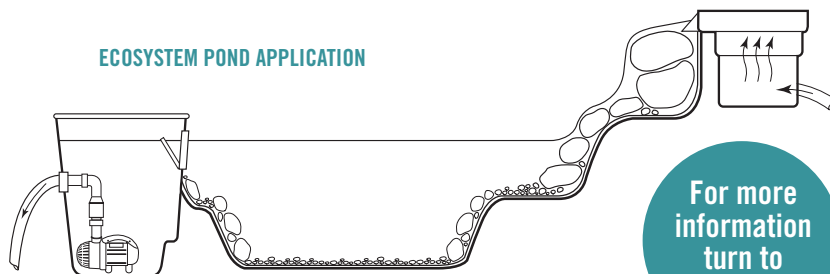

For more information turn to page 6

Ecosystem Ponds

- An ecosystem pond is truly the gem of the water feature category.
- A pond will delight your customers with aquatic plant varieties that they never knew existed.
- Nature lovers simply can't go wrong, as water features attract wildlife of all kinds.
- An Ecosystem Pond maintains clarity and quality of water through a balance of fish, plants, aeration, and filtration.

ECOSYSTEM POND APPLICATION

MICROPOND® KIT

Take the guesswork out of trying to assemble the perfect combination of equipment and liner to create a stunning water garden. The only thing that is missing in this kit is rock, plants and a little imagination.

All MicroPond® Kits come complete with the following components:

- MicroSkim® - Removes leaves and debris from the surface of the pond and provides protection for your pump
- MicroFalls® Filter - Provides complete biological filtration
- AquaSurge® 2000 waterfall pump
- 25 feet of 1 ½" quality kink-free hose
- Pond Liner made from quality EPDM 45 mil fish safe rubber - 20-year guarantee!
- Geotextile underlayment - Protects liner from sharp objects
- All necessary fittings and silicone sealants
- Complete installation instructions and owner's manual

MicroPond® Kits come in the following sizes:

#99763 4' x 6' MicroPond® Kit (250 gal.)

Includes 8' x 10' Liner

(Unit Weight: 75 lbs.)

MSRP \$949.98

#99764 6' x 8' MicroPond® Kit (500 gal.)

Includes 10' x 12' Liner

(Unit Weight: 87 lbs.)

MSRP \$999.98

#99765 8' x 11' MicroPond® Kit (1000 gal.)

Includes 12' x 15' Liner

(Unit Weight: 107 lbs.)

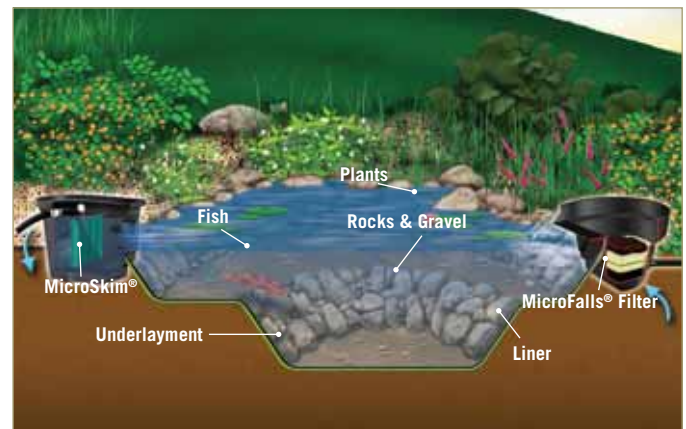

MSRP \$1,099.98

The Aquascape® Ecosystem

MICROPONDLESS® WATERFALL KIT

A Pondless® Waterfall is simply a waterfall without the pond.

The perfect solution for small spaces or family homes with small children. This is also the ideal water feature for the front of the home since it can be tucked into any corner. Children will spend hours playing in and around this system.

This kit contains all the necessary components to create a Pondless® Waterfall.

- MicroFalls® Filter - This is the starting point of your waterfall
- MicroCentipede™ Module - Provides space for water to be returned to the pump
- MicroSnorkel™ Vault - Provides access to your pump and allows you to check the water level in the system
- AquaSurge® 2000 waterfall pump
- 25 feet of 1 ½" quality kink-free hose
- 10' X 12' Pond Liner made from quality EPDM 45 mil fish safe rubber - 20-year guarantee!
- Geotextile Underlayment - Protects liner from sharp objects
- Complete installation instructions and owner's manual

#99769 4' x 6' MicroPondless® Waterfall Kit

(Unit Weight: 83 lbs.)

MSRP \$999.98

#98931 MicroSnorkel™/ MicroCentipede™ Kit

(Unit Weight: 13 lbs.)

MSRP \$199.98

*Filter mats and media nets for the MicroFalls® unit are not included with the MicroPondless® Waterfall kit.

Video on

MicroPondless® Kit

How the Pondless® Waterfall Works:

The water held within the open spaces of the gravel flows down toward the MicroPondless® Filter which is made up of the Centipede® Module and the Snorkel® Vault. From there, it gets pumped up to the BioFalls® Filter (waterfall unit), where it flows by gravity back down through the gravel bed and MicroPondless® Filter and the cycle begins again.

Pond Filtration

Skimmer Filters

Aquascape's family of field-proven, time-tested skimmers are the #1 selling skimmers in the water garden market. No gizmos or gadgets designed by engineers behind a desk, but rather, functional, easy-to-install and maintain filters designed by actual pond builders.

MICROSKIM®

Good things come in small packages with Aquascape's MicroSkim® Filter. Our compact skimmer is an affordable solution for smaller ponds up to 200 sq. ft. and less than 1,000 gallons. The MicroSkim® is designed to handle pumps up to 3,000 gallons per hour.

- Unique Filter Brush Cartridge secures brushes, making it easy to remove for cleaning
- Round shape maximizes structural strength
- Works great with the AquaSurge® line of pumps
 - *Note: The AquaSurge® PRO pumps are too large.*

#99771 MicroSkim®

(Unit Weight: 15.9 lbs.)

MSRP \$279.98

SIGNATURE SERIES™ SKIMMER

Aquascape's best selling professional-grade skimmers include patented features that make installation a snap with components designed to make maintenance effortless. It's no wonder the Signature Series™ Skimmer is chosen by more professional pond builders than any other skimmer in the market!

- Patented Adjustable Faceplate makes installation fool proof
- Round shape maximizes structural strength
- Rigid Debris Basket makes cleaning easy
- Two sizes of skimmer openings are available

SIGNATURE SERIES™ 6.0

- 6" wide opening
- Handles flow rates up to 4,000 gallons per hour

#09019 Signature Series™ Skimmer 6.0

(Unit Weight: 27 lbs.)

MSRP \$479.99

SIGNATURE SERIES™ 8.0

- 8" wide opening
- Handles flow rates up to 10,000 gallons per hour
 - *Note: The Tsurumi 12PN and AquascapePRO® 10,000 pumps are too large. Multiple pumps can be used to achieve up to 10,000 gallons per hour.*

#29349 Signature Series™ Skimmer 8.0

(Unit Weight: 27 lbs.)

MSRP \$479.99

MICROFALLS® FILTER

MicroFalls® Filter

- ① Removable upper tray can hold rocks, plants, and gravel, helping to naturalize the filter into the surrounding landscape (optional with MicroFalls®)
- ② Biological Media net to hold BioBalls™ (BioBalls™ sold separately)
- ③ Two standard biological filter mats
- ④ Single bulkhead plumbing port
- ⑤ Fully attachable lip with corrosion-resistant non-cross-threading hardware stands up to the elements

①

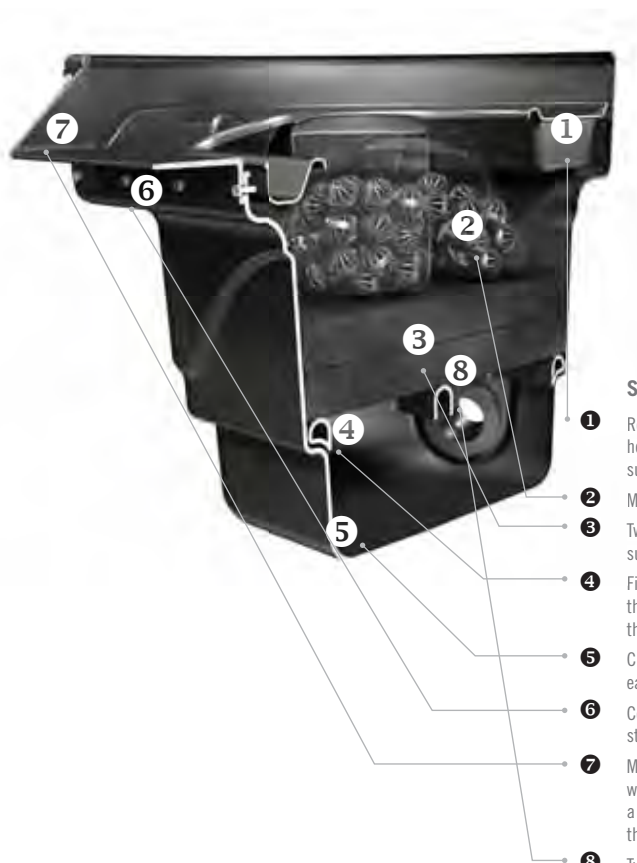

Optional Rock and Plant Tray helps camouflage filter

②

Includes Biological Media Net to hold BioBalls™

SIGNATURE SERIES™ BIOFALLS® FILTER 2500 AND 6000

Signature Series™ BioFalls® Filter

- ① Removable upper tray can hold rocks, plants, and gravel, helping to naturalize the BioFalls® Filter into the surrounding landscape
- ② Media net and BioBalls™
- ③ Two Poly-Flo ESA biological Filter Mats provide 50% more surface area than traditional filter mats
- ④ Filter support rack ensures evenly distributed waterflow through filter mats and provides structural strength to the walls of the filter
- ⑤ Circular shape provides maximum strength and makes it easy to camouflage into the landscape
- ⑥ Corrosion resistant non-cross-threading hardware stands up to the elements
- ⑦ More advanced installers will love the reversible waterfall lip option, which provides the flexibility of using a natural stone spillway and large accent boulders along the front of the unit (for 2500 and 6000 model filters)
- ⑧ Two bulkhead ports provide plumbing options

①

Rock and Plant Tray helps camouflage filter

②

Expanded Surface Area (ESA) Filter Mats have 50% more surface area than standard mats.

⑦

Reversible lip feature provides advanced installers with waterfall design options

WATERFALL SPILLWAY

The Waterfall Spillway is a cost-effective solution to help create the starting point of a beautiful waterfall and stream.

- Creates a smooth consistent water flow
- Handles flow rates up to 7,500 GPH / 28,000 LPH
- The durable design makes it easy to disguise by allowing soil, rocks or logs to be placed directly on top of the unit
- Comes complete with a 2-inch PVC slip fitting and pre-installed bulk head

When to use the Waterfall Spillway - The Waterfall Spillway is a versatile tool that can be used in a wide variety of water feature applications. You may find that your imagination is the only limitation to what you can create with the Waterfall Spillway.

- The Waterfall Spillway is an ideal solution for starting waterfalls on **Pondless® Waterfall** systems, where, due to the absence of fish, more expensive biological filters aren't necessary.
- The Waterfall Spillway is also an excellent choice for designing **additional waterfalls and streams** onto new or existing ponds that already have a biological filter.
- With the Waterfall Spillway you can build behind **hardscape walls** to provide a more formal waterfall design.
- You can use **multiple Waterfall Spillways** to design larger, more creative waterfall configurations.

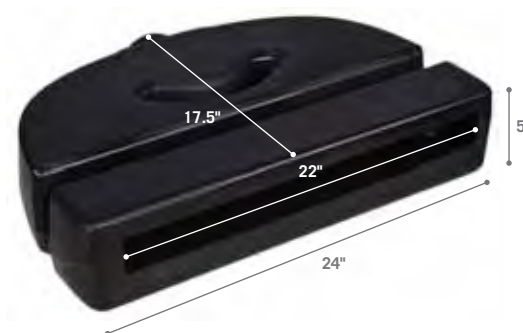

#77000 Waterfall Spillway (Unit Weight: 9 lbs.)

MSRP \$129.99

WATERFALL SPILLWAY APPLICATION

PONDLESS® WATERFALL VAULT AND PONDLESS® WATERFALL VAULT EXTENSION

The Pondless® Waterfall Vault is packed with features that the professional installer will truly appreciate. Not too big and not too small, the expandability of the Pondless® Waterfall Vault makes this filter perfectly sized to meet the need of any Pondless® Waterfall or RainXchange® project

- Simple to install and maintain
- Large interior fits a wide range of pump sizes up to 12,500 gallons per hour
- Expandable height allows the Pondless® Waterfall Vault to be used on any size project
 - Comes standard for use with the Small AquaBlox®
 - Optional Pondless® Waterfall Extension can be used when creating deeper basins using the Large AquaBlox®
- Made from durable rotationally molded polyethylene

Pondless Waterfall Extension

- Slides onto the Pondless® Waterfall Vault increasing the height for deeper basins using the Large AquaBlox®
- Required when using larger and/or taller pumps with 3-inch plumbing. This ensures the height of the Vault is tall enough to accommodate the large pump

#49000 Pondless® Waterfall Vault

(Unit Weight: 14 lbs.)

MSRP \$249.99

#49001 Pondless® Waterfall Vault Extension

PONDLESS® WATERFALL VAULT APPLICATION

- 1 Excellent water circulation through horizontal and vertical water intakes
- 2 Extra wide opening provides easy access
- 3 Large interior fits a wide range of pump sizes
- 4 Easy to camouflage! Built-in water level inspection port allows lid to be buried out of sight

2

Designed to integrate with the AquaBlox® making excavation and installation a snap!

4

Built in water level inspection port allows lid to be buried out of sight.

AQUABLOX®

Aquascape's AquaBlox® modular water storage system, also known as the D-Raintank® by Atlantis®, is an efficient way to maximize your water storage capacity in Pondless® Waterfall reservoirs.

- Over 3 times more water storage capacity than gravel. The AquaBlox® can hold approximately 7.4 gallons of water per cubic foot, as compared to gravel, which holds approximately 2.2 gallons of water per cubic foot.
- Extra water storage capacity means less time topping off reservoir due to evaporation
- Easier to clean and less prone to clogging than traditional gravel basins.
- The ability to hold more water per cubic foot allows for smaller reservoirs.
- Less labor required to excavate and move gravel for basin
- Uses less liner and geotextile underlayment than reservoirs constructed with gravel

#29491 Small AquaBlox®

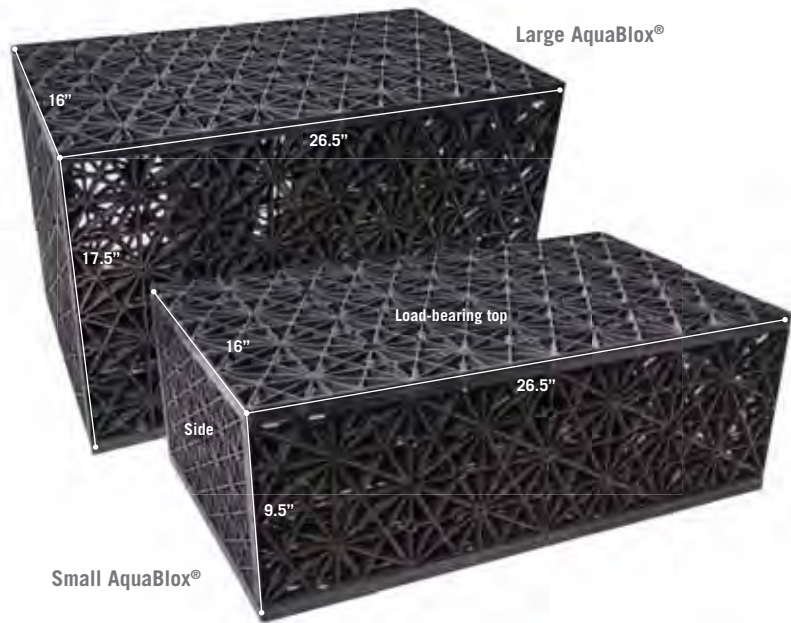

(Unit Weight: 11 lbs.)

MSRP \$42.99

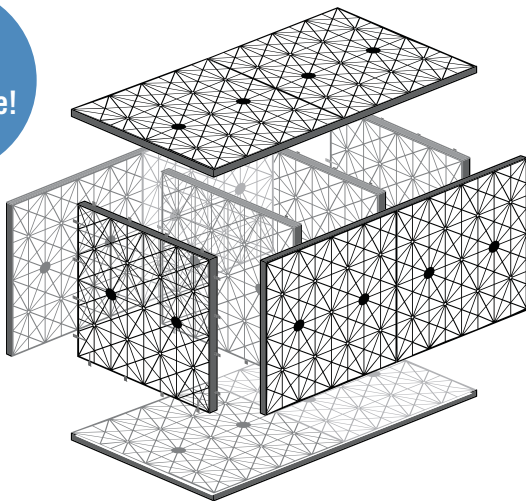

#29492 Large AquaBlox®

(Unit Weight: 16 lbs.)

MSRP \$52.99

Takes
1 minute
to assemble!

AquaBlox® are assembled on site, making transporting and installation extremely efficient

Modular Design

The lightweight design of AquaBlox® makes installation quicker, safer and cheaper.

| Product # | AquaBlox® Size | Dimensions | # of Parts / Dimensions | Volume | Weight | Load Bearing Weight |
|-----------|----------------|---------------------------|--|------------|---------|---------------------|
| 29491 | Small | 26.5" L x 16" W x 9.5" H | 4: 8" x 16"; 2: 26.5" x 8"; 2: 26.5" x 16" | 17 gallons | 11 lbs. | 5,472 lbs./sq. ft. |
| 29492 | Large | 26.5" L x 16" W x 17.5" H | 4: 26.5" x 16"; 4: 14.5" x 16" | 32 gallons | 16 lbs. | 5,472 lbs./sq. ft. |

GRANDE SKIMMER

Grande Skimmer Product Features:

- Skims ponds with a surface area up to 1,500 sq. ft.
- Handles up to two 10,000 gallons per hour pumps (20,000 GPH max)
- 15" weir opening
- Includes Debris Net
- Natural looking faux-rock lid

#09017 Grande Skimmer

(Unit Weight: 54 lbs.)

MSRP \$829.99

GRANDE BIOFALLS® FILTER

Filters ponds up to 10,000 gallons and handles flow rates up to 20,000 gallons per hour

Grande Filter Product Features:

- 48" spillway
- Single 3" bulkhead port
- Includes one 3" PVC slip fitting
- Standard filter mats and media nets for biological media

#09011 Grande BioFalls® Filter

(Unit Weight: 86 lbs.)

MSRP \$929.99

Wetland Filter

A Field-Tested, Field-Proven System for Filtering Large Bodies of Water

Equipment Application

Our patented Snorkel® Vault and Centipede® Module were specifically designed to tackle any number of the common issues that plague large scale water features such as retention and golf course ponds. They are modular in design, allowing builders and designers the flexibility to expand the system to meet their needs.

This unique system has been modeled directly from nature. According to David Braun with The Nature Conservancy, "Wetlands, and the plants found within them are wonderful filters; they trap sediments and remove chemicals . . . water that passes through them is much cleaner, and they provide a valuable habitat for wildlife."

WETLAND POND & LAKE BACTERIA

Aquascape Wetland Pond & Lake contains 8 pure strains of concentrated beneficial bacteria, including PSB bacteria and enzymes. Aquascape Wetland Pond & Lake maintains a strong biological balance providing clean, clear and healthy water conditions.

#98897 4 liters/1 gal. For Professional Use

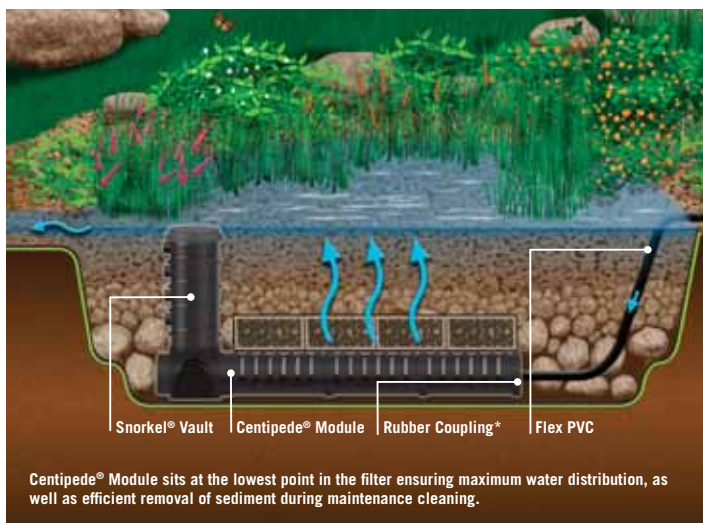

(Unit Weight: 9.2 lbs.)

MSRP \$159.98

1 bottle treats up to 512,000 gal./193,536 liters
1 pump treats up to 4,000 gal./15,137 liters

- Highly effective at removing sediment (suspended solids) from the pond
- Easily access collected sediment with the Snorkel® Vault, reducing the need for costly and invasive dredging
- Improves water clarity
- Strips excess nutrients from the water column, reducing algae and the physical and chemical maintenance that goes along with removing algae.
- Removes toxic metals, chemicals, and hydrocarbons flushed into the system via storm water with the help of plants and beneficial bacteria
- Works on earth bottom and liner membrane ponds
- Easily retrofitted onto existing ponds
- Create a waterfall and stream by designing the wetland filter system off the perimeter of the pond
- Add a natural aesthetic to the pond design with aquatic plants and stone
- Ideal for retention pond construction and restoration

The filter's modular design allows it to be constructed in a variety of shapes and sizes.

CONSTRUCTED WETLAND FILTER SYSTEM REQUIREMENTS

| Pond Size (in sq. ft.) | Actual Filter Size | Number of Centipede® Modules | Liner, basic configurations minimum sizes | Pump Flow GPH | Pump Housing |
|------------------------|--------------------|------------------------------|---|---------------|-------------------------------|
| 600 | 8' x 10' | 1 | 15' x 20' | 3000 | Wet Well or Standard Skimmer |
| 2400 | 8' x 15' | 2 | 15' x 25' | 4500 | Wet Well or Large Skimmer |
| 7200 | 8' x 20' | 3 | 15' x 30' | 7500 | Wet Well or Large Skimmer |
| 10000 | 8' x 25' | 4 | 15' x 35' | 10000 | Wet Well or Grande Skimmer |
| 20000 | 8' x 50' | 8 | 15' x 70' | 20000 | Wet Well or Grande Skimmer |
| 40000 | 25' x 50' | 12 | 35' x 70' | 30000 | Wet Well or 2-Grande Skimmers |
| 80000 | 50' x 50' | 16 | 70' x 70' | 40000 | Wet Well or 2-Grande Skimmers |

Image 1: The layout of the Snorkel® Vault and Centipede® Modules for the first shoreline wetland filter

Image 2: The excavation of the wetland filter

Image 3: The excavated wetland is lined with EPDM rubber liner and the Snorkel® Vault and Centipede® Modules are set in place

Image 4: The Centipede® Modules are covered with several layers of stones. The larger voids found between these stones allow the incoming water to flow throughout the wetland and provides ample room for the deposition of sediments

Image 5: A section of the finished wetland

LARGE SNORKEL® VAULT AND CAP

- Allows pump to be dropped in for easy cleaning
- 4 ports for Large Centipede® Module attachment

#29064 Large Snorkel® Vault and Cap (Unit Weight: 27 lbs.)
MSRP \$429.99

LARGE CENTIPEDE® MODULE

- Modular design
- For use with Large Snorkel® Vault

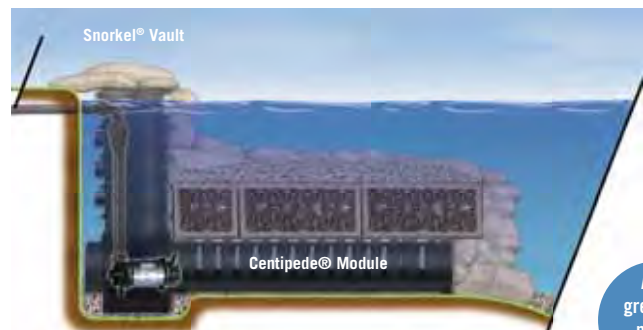

#29065 Large Centipede® Module
(Unit Weight: 29 lbs.)
MSRP \$299.99

Wet Wells

The Snorkel® Vault and Centipede® Module Wetland Filtrations System can also be used in wet well applications!

- Wet well is completely camouflaged into the shoreline, hiding unsightly pump houses and plumbing lines
- Great for large ponds
- Perfect for natural-bottom retention ponds
- Ideal for ponds with fluctuating water levels
- Access to pump is easy with a Snorkel® Vault
- Virtually no maintenance
- Pre-filter the pump to prevent clogging with debris

Also great for pump wet wells

THE IONGEN™ G2 SYSTEM

The IonGen™ second-generation electronic water clarifier for Ponds, Pondless® Waterfalls and other decorative water features drastically reduces maintenance and provides crystal clear water without the use of chemicals. A microprocessor inside the IonGen™ releases ions from a scientifically-blended and tested probe that achieves maximum treatment results in water features.

- Drastically reduces pond maintenance
- Helps to eliminate unsightly water conditions without the use of chemicals
- Simple to install
- Can be used with fish and plants
- Energy efficient (less than \$1 a month in electricity cost)
- Treats ponds up to 25,000 gallons
- Probe typically lasts 1-3 seasons, depending on the ionization level it is operated at, size of pond and water parameters of the water feature
- Complete with electronic control panel, outdoor-rated transformer, flow chamber, probe, fittings, copper test kit, and owner's manual

#95012 IonGen™ G2 System

4.25" L x 1" W x 3.25" H (Control Panel)

6.25" L x 2.75" W x 4.75" H (Flow Chamber)

(Unit Weight: 3.3 lbs.)

MSRP \$379.98

Video on

IonGen™

Fittings Included

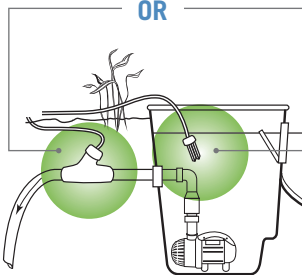

1", 1.25", 1.5"
Universal Barbed
Hosetail Fitting

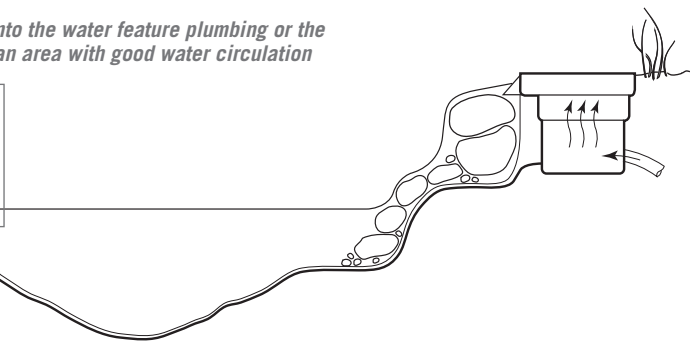

2" PVC Slip Fitting

IONGEN™ POND APPLICATION

Probe can be installed directly into the water feature plumbing or the Flow Chamber can be placed in an area with good water circulation

OR

- 1 Weatherproof Control Panel
- 2 Easy-to-read digital display
- 3 Indicator notifies you when the probe needs to be replaced
- 4 Adjustable ionization level
- 5 Durable quick-connect electrical connections - cable to transformer (12' long) and probe (15' long)

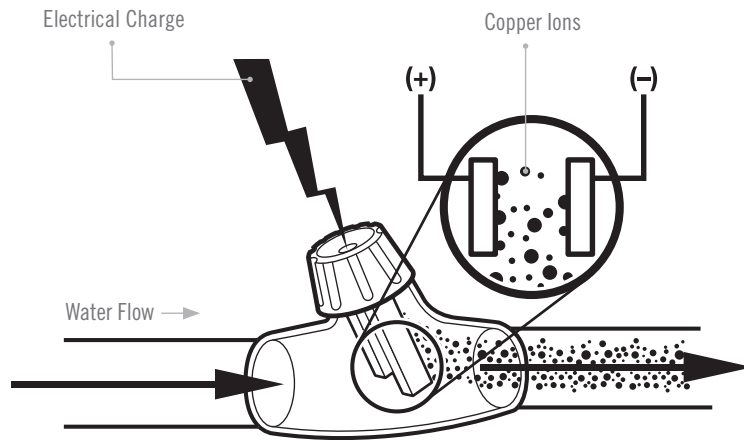

durable quick-connect
electrical connections

- 1 Tool-free probe installation
- 2 Angled probe helps deflect debris and reduce clogging
- 3 2" threaded inlet and outlet
- 4 Includes 2" PVC slip fittings and universal barbed hose tail fittings (1", 1.25", 1.5")
- 5 Durable quick-connect electrical connections

How does the Aquascape IonGen™ System work? The Aquascape IonGen™ releases a calculated mixture of copper ions into the path of flowing water. The IonGen™ Control Panel sends signals that slowly dissolve the replaceable probe. The ions produced by the probe help improve water quality conditions, as well as drastically reduce maintenance and the need for traditional pond chemicals.

HOW IT WORKS

durable quick-connect
electrical connections

The IonGen™ Probe can be installed directly in the water features recirculating system using the Flow Chamber included with the IonGen™ System.

The Probe can also be installed without the flow chamber by hanging it directly into a filter with good water flow, such as a Skimmer or Pondless® Waterfall.

IONGEN™ (G2) REPLACEMENT PROBE

- For 2nd Generation Flow Chamber
- Includes 5 ft. Quick-Connect cable

#95016 IonGen™ G2 Replacement Probe

1.5" L x 1.5" W x 3.25" H
(Unit Weight: .5 lbs.)

MSRP \$119.98

IONGEN™ (G1.5) REPLACEMENT PROBE

- For 1st Generation PVC tee-style Flow Chamber and the G2 control panel
- Includes 5 ft. Quick-Connect cable

#95072 IonGen™ G1.5 Replacement Probe

(Unit Weight: 1 lb.)

MSRP \$119.98

IONGEN™ (G1) REPLACEMENT PROBE

- For 1st Generation PVC tee-style Flow Chamber and the G1 control panel
- Works with any ionization system that includes EDAC style connector

#98881 IonGen™ G1 Replacement Probe

(Unit Weight: .9 lbs.)

MSRP \$119.98

COPPER TEST KIT

- Measures residual copper
- 25 tests per kit

#96020 NEW Copper Test Kit

MSRP \$19.98

KH/ALKALINITY TEST KIT

- Measures KH/Alkalinity
- 60 tests per kit

#96019 NEW KH/Alkalinity Test Kit

MSRP \$19.98

25 FT. LIGHTING AND IONGEN™ PROBE CABLE EXTENSION WITH QUICK-CONNECTS

Useful when requiring longer cable runs. Includes one female quick-connect and one male quick-connect on opposite ends.

#98998 25 ft. Lighting and IonGen™ Probe Cable Extension with Quick-Connects

(Unit Weight: .75 lbs.)

MSRP \$14.98

POND FILTER URN

The Aquascape Pond Filter Urn is ideal for smaller ponds, including preformed ponds or container water gardens. The Aquascape Pond Filter Urn can easily be incorporated into existing ponds. Ideal for use with Aquascape Ultra™, AquaForce® or AquaJet™ Water Pumps.

- Great add-on filtration for any size existing pond
- Simple to use and maintain
- Connects to most water pumps
- Ideal for use in smaller ponds or container water gardens
- Quickly adds the sight and sound of trickling water to ponds without waterfalls or streams
- Comes complete with mechanical and biological filter media

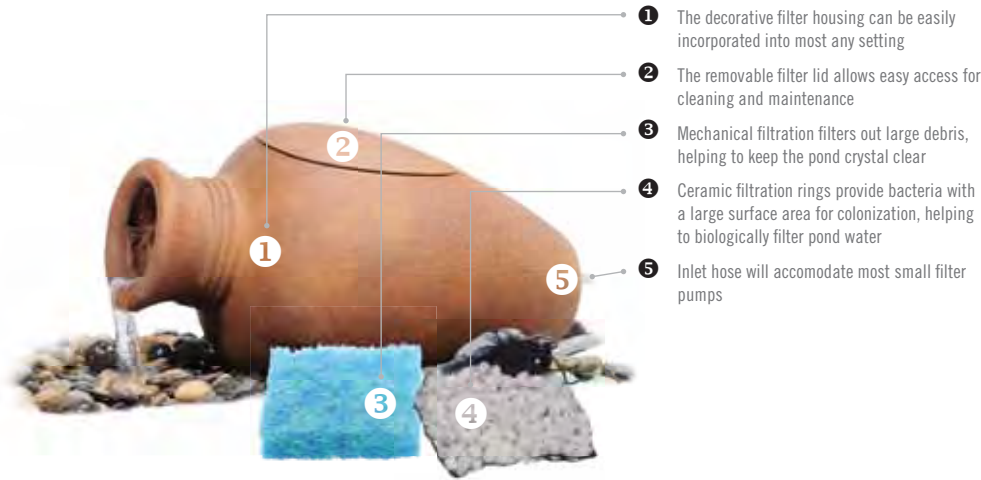

#77006 Pond Filter Urn

(Unit Weight: 16.1 lbs.)
MSRP \$159.98

#77011 NEW Pond Filter Urn - Lg

(Unit Weight: 25 lbs.)

CONTAINER WATER GARDEN FILTER

Ideal for all container water gardens holding up to 50 gallons of water

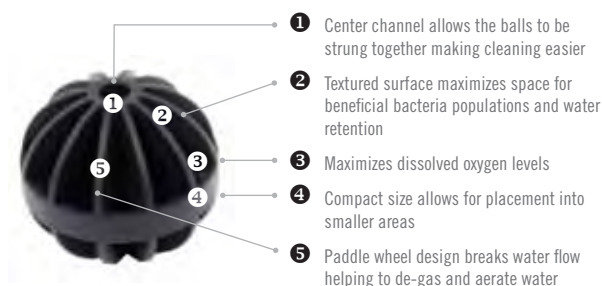

The Aquascape Container Water Garden Filter is a complete solution for small to medium-size container water gardens or any containers with stagnant or non-moving water including birdbaths, or water containers holding specimen pond plants like lotus or waterlilies.

- Magnetically driven, or "mag drive" motor technology, is simple and easy to maintain
- Extremely energy-efficient
- Durable pre-filter water intake design prevents clogging and reduces pump maintenance
- Provides years of trouble-free operation

#77005 Container Water Garden Filter

(Unit Weight: .8 lbs.)

MSRP \$24.98

BIOBALLS™

Aquascape BioBalls™ provide a textured surface area (19 sq. inches per BioBall™) for beneficial bacteria to colonize and grow. Aquascape BioBalls™ are the ideal filtration media for use in all biological filtration. Each box contains 100 balls and fits perfectly in the Aquascape MicroFalls®.

- Easy to clean and maintain
- Textured surface for optimum bacteria growth
- Can be used for filtration or in de-gassing towers
- Will not break like pegged BioBalls™

#98464 BioBalls™ (100 pcs.)

1.5" diameter

(Unit Weight: 2.8 lbs.)

MSRP \$34.98

SIGNATURE SERIES™ SKIMMER RIGID FIBER FILTER MAT

- Alternative to the standard filter mat included with the Signature Series™ Skimmer
- Open, coarse pore design reduces maintenance and traps large debris
- Very durable
- Extremely easy to clean

#56000 NEW Signature Series™ Skimmer Rigid Fiber Filter Mat (Unit Weight: 0.6 lbs.)

MSRP \$39.99

RAPID CLEAR FINE FILTER PAD

- Designed to be placed in your filter where it can speed up the process of filtering out the flocculated particles
- Can also polish up your water quality for nighttime viewing when suspended particles are more easily seen with underwater lights
- For best results use in combination with Rapid Clear Liquid water treatment
- Includes three 12" x 24" filter pads

#80001 Rapid Clear Fine Filter Pad (3 pk.)

(Unit Weight: .6 lbs.)

MSRP \$10.98

WHITE FILTER MEDIA

#99321 1.25" x 10' Coarse

#99323 2" x 10' Coarse

56" wide (Unit Weight: 11.9 lbs.)

MSRP \$249.98

#99325 1" x 10' Dense

56" wide (Unit Weight: 8.8 lbs.)

MSRP \$169.98

ACTIVATED POND CARBON

- Clarifies pond water
- Quickly reduces pond odor
- Removes discolorations

#80000 Activated Pond Carbon

1 container contains up to 32 scoops/

1 scoop treats up to 25 gal.

(Unit Weight: 2.2 lbs.)

MSRP \$19.98

Pumps

AQUASURGE® SKIMMER AND PONDLESS® WATERFALL VAULT PUMP

Submersible waterfall and filter pump made for use in skimmer style filter systems (available in flow rates from 2000 to 5000 GPH / 7,570 to 18,927 LPH)

AquaSurge® second-generation asynchronous skimmer and waterfall and filter pumps accomplish what most other pumps only aspire to achieve. The combination of energy-efficient performance, and flow and ease of maintenance, make this pump the ideal choice for discriminating pond owners. AquaSurge® pumps are ideal for use in Aquascape and other skimmer and falls filter systems as well as Pondless® Waterfall filter vaults.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Asynchronous motor technology provides high torque, trouble-free performance at higher head heights
- Designed for use in skimmer and falls filter systems
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation
- Made for continuous use
- Will not corrode or rust
- Rubber feet prevent noise and vibration
- Can be used vertically or horizontally

#91017 AquaSurge® 2000 Pump (Unit Weight: 9.3 lbs.)
MSRP \$329.98

#91018 AquaSurge® 3000 Pump (Unit Weight: 9.7 lbs.)
MSRP \$379.98

#91019 AquaSurge® 4000 Pump (Unit Weight: 12.1 lbs.)

limited
warranty

AQUASURGE® POND AND PONDLESS® APPLICATION

Adapters Included

- 1 The compact size makes the AquaSurge® the perfect pump for pond skimmers
- 2 Built-in cord strain relief protects the cord from being damaged
- 3 Asynchronous motor technology makes this pump more powerful and more efficient than traditional "mag-drive," or magnetically driven pond pumps
- 4 The unique ceramic shaft with cooling port prevents the pump from overheating
- 5 The simple and secure threaded disconnect allows for the pump to be easily removed from the skimmer for maintenance or winterization without removing hose clamps or plumbing assemblies
- 6 Integrated rubber feet prevent noise and vibration
- 7 The rotational ball output allows the pump discharge position to be easily adjusted, making this pump ideal for all shapes and sizes of ponds
- 8 Included pump stand allows for vertical positioning

AQUASURGE® PRO SKIMMER AND PONDLESS® WATERFALL VAULT ADJUSTABLE FLOW PUMPS

- Allows you to customize and fine-tune the flow of waterfalls and streams
- Ability to adjust the flow makes it easy to select the right pump for any application
- Pump can be turned on or off with remote
- Ideal for use in Pondless® Waterfall applications, allowing the falls to be adjusted or turned on and off when desired
- Each remote and receiver are paired together with a unique frequency

#45009 AquaSurge® PRO 2000-4000

(Unit Weight: 10.5 lbs.)

MSRP \$499.99

#45010 AquaSurge® PRO 4000-8000

(Unit Weight: 13 lbs.)

MSRP \$619.99

Protect your pump from damage and ensure your pump provides you with years of trouble-free operation by never removing the filter screen while operating the pump. The AquaSurge® pump is made to be used in a pre-filter application such as a Skimmer or Pondless® Waterfall Vault and not as a pump placed directly in the pond.

For an in-pond application please use the Aquascape AquaForce® pump

AQUAFORCE® SOLIDS-HANDLING WATERFALL PUMP

Submersible, solids-handling waterfall and filter pump (available in flow rates from 1000 to 5200 GPH / 3,785 to 19,684 LPH)

AquaForce® second-generation, asynchronous, solids-handling waterfall and filter pumps accomplish what most other pumps only aspire to achieve. The combination of energy-efficient performance, flow and ease of maintenance make this pump the ideal choice for discriminating pond owners. The AquaForce® protective pre-filter cage allows the pump to be placed directly into the pond. AquaForce® pumps are able to pump solids up to one quarter of an inch, making it ideal for use with external pressure filters or Aquascape waterfalls type filter systems.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Asynchronous motor technology provides high torque, trouble-free performance at higher head heights
- Easy to maintain
- Durable prefilter cage design prevents clogging and reduces pump maintenance
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation

AQUAFORCE® POND APPLICATION

- The AquaForce® protective pre-filter cage allows the pump to be placed directly into the pond.

- 1 Protective pump cage prevents large debris from clogging or damaging pump, thereby reducing maintenance
- 2 Large cage openings allow for solids to be easily processed by pump, allowing debris to be passed and filtered, preventing the pump from being clogged or damaged
- 3 Asynchronous motor technology makes this pump more powerful and more efficient than traditional "mag-drive," or magnetically driven pond pumps
- 4 The simple and secure threaded disconnect allows for the pump to be easily removed from the pond for maintenance or winterization without removing hose clamps or plumbing assemblies
- 5 The wide, flat shape of the pump cage makes it stable and easy to place in the pond

AQUAFORCE® PRO 4000-8000 ADJUSTABLE FLOW SOLIDS HANDLING WATERFALL PUMP

- Allows you to customize and fine-tune the flow of waterfalls and streams
- Ability to adjust the flow makes it easy to select the right pump for any application

STATUARY AND FOUNTAIN PUMPS

Submersible fountain, waterfall and filter pump (available in flow rates from 70 to 320 GPH / 265 to 1,211 LPH)

Aquascape Statuary and Fountain Pumps are perfect for running smaller decorative fountains. These high quality, "mag-drive" or magnetically driven water pumps are ideal for supplying water to run fountains, water features, external filters, spitting ornaments and indoor or outdoor water fountains. This combination of energy-efficient, mag-drive performance, and flow and ease of maintenance make this pump the ideal choice for discriminating water feature owners.

- Extremely energy-efficient
- Magnetically driven or mag-drive motor technology is simple and easy to maintain
- Durable pre-filter cage design prevents clogging and reduces pump maintenance
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation

Aquascape Statuary and Fountain Pumps will provide years of trouble-free operation when properly maintained. If your Statuary and Fountain Pump stops working, try cleaning the protective input strainer and sponge. Another tip is to remove and clean the impeller and impeller housing with a mild acid-like white vinegar and a toothbrush. This will remove any white scale build-up and allow the pump to run like new again. Note: Replacement impeller kits are available

ULTRA™ PUMPS

Submersible fountain, waterfall and filter pump (available in flow rates from 400 to 2000 GPH / 1,514 to 7,570 LPH)

Ultra™ Pumps are the complete solution for small ponds, fountains and water features. This all-in-one kit includes a three-way diverter valve and multi-size hose connection making it adaptable to almost any hose or tubing size. Ultra™ Pumps are ideal for supplying water to run fountains, water features, external filters and spitting ornaments. This combination of energy-efficient "mag-drive" performance, flow, and ease of maintenance make this pump the ideal choice for discriminating pond owners.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Magnetically driven or "mag-drive" motor technology is simple and easy to maintain
- Durable prefilter cage design protects pump and reduces pump maintenance
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation

AQUAJET™ PUMPS

Submersible fountain, waterfall and filter pump (available in flow rates from 600 to 2000 GPH / 2,271 to 7,570 LPH)

AquaJet™ fountain and filter pumps are the complete solution for small to medium-size ponds or ponds up to 4000 gallons. This all-in-one kit provides a stunning water fountain with the choice of three included fountain heads.

An integrated, diverter valve supplies water to a small waterfall, external filters or spitting ornaments. This combination of energy-efficient performance, and flow and ease of maintenance make this pump and fountain kit the ideal choice for discriminating pond owners.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Magnetically driven or "mag-drive" motor technology is easy to maintain
- Durable pre-filter cage design prevents clogging and reduces pump maintenance
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation

#91014 AquaJet™ 600 Pump

(Unit Weight: 5.5 lbs.)

MSRP \$199.98

#91015 AquaJet™ 1300 Pump

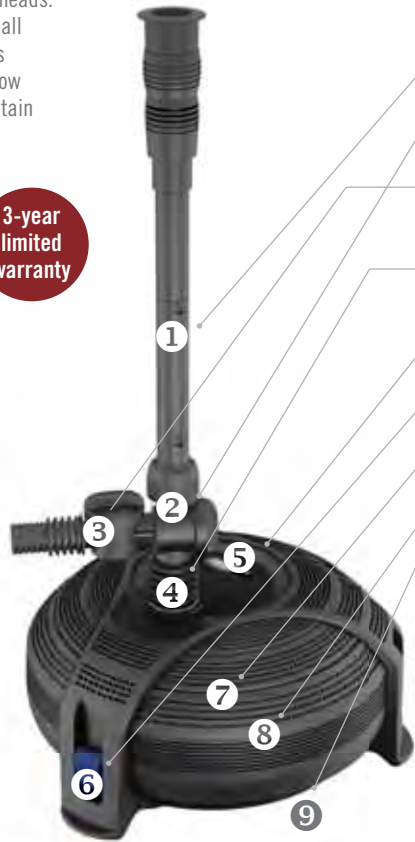

(Unit Weight: 8.8 lbs.)

MSRP \$229.98

#91016 AquaJet™ 2000 Pump

(Unit Weight: 9.7 lbs.)

MSRP \$299.98

- 1 The adjustable riser stem makes it simple to adjust the fountain head to different heights and/or depths
- 2 The rotational riser stem fitting allows for simple adjustment or leveling of fountain heads
- 3 Adjustable diverter and flow control allows water to be used for fountainhead, circulation, and additional equipment like spitters or external filters and waterfalls
- 4 The simple and secure-threaded disconnect allows for the pump to be easily removed from the pond for maintenance or winterization without removing hose clamps or plumbing assemblies
- 5 Protective pump cage prevents debris from clogging or damaging pump, thereby reducing maintenance
- 6 Simple pump cage clips make it easy to open the protective pump cage to perform pump maintenance or remove debris
- 7 Mag-drive motor technology makes this pump energy efficient and simple to maintain
- 8 Fine cage openings prevents fountain heads from becoming clogged
- 9 The wide, flat-shaped pump cage makes it stable and easy to place in the pond

2-OUTLET AND 4-OUTLET POND AERATORS

Every process that happens in the pond is dependent on oxygen. This is especially important at night when plants are not converting sunlight into oxygen. Dissolved oxygen levels are also generally lower in warmer water temperatures. Pond aerators oxygenate your pond, helping all biological processes and creating a more stable environment, resulting in healthier fish and plants. Aeration is also very important during winter months in colder climates, as aeration helps to keep a small hole open in the surface of the pond to aid in degassing.

- Extremely energy-efficient
- Quiet
- Simple to use and maintain
- Durable outer housing prevents damage
- Comes complete with winter resistant air line, preassembled check valves and weighted air stones
- Provides years of trouble-free operation

#75000 2-Outlet Pond Aerator

(Unit Weight: 3.2 lbs.)

MSRP \$59.98

#75001 4-Outlet Pond Aerator

(Unit Weight: 5.2 lbs.)

MSRP \$99.98

Video on

Pond Aerator

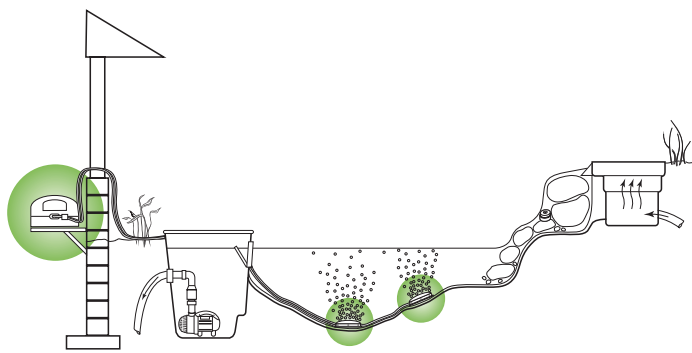

The 2-outlet and 4-outlet aerator pump should be placed in an indoor location dry and free from airborne dust and debris. If you notice that your pump is losing air pressure or simply doesn't work as well as when you purchased it, a simple, inexpensive renew kit is available. After installing the renew kit your pond aerator should be as good as new.

replacement parts available

POND AERATOR APPLICATION

- 1 The strong outer housing protects the pump from becoming easily damaged
- 2 A thick rubber gasket separates the two halves of the air pump, reducing noise and preventing vibration
- 3 The wide, flat base of the pump makes it stable and easy to place
- 4 The integrated rubber feet prevents noise and vibration keeping the pump stable so there is no movement from its intended position
- 5 The replaceable diaphragm and assembly cartridge makes this pump simple and inexpensive to service

POND AERATOR PRO

Aquascape professional-grade aeration system is designed to help improve water circulation and increase oxygen throughout the pond. The Pond Aerator PRO system can also be used during the winter months where the bubbles created at the surface will keep a small hole open in the ice for oxygenation and the removal of possible harmful gases from the water.

- Comes complete with a weather- proof, outdoor-rated, energy-efficient 45-watt air pump
- High volume 2.1 CFM of air
- For ponds up to 10,000 gallons
- Includes one large 8-inch diameter aeration disc and 30-feet of 3/8" braided aeration tubing

limited
warranty

WINTER APPLICATION

Pond Aerators can also be used during the winter months where the bubbles created at the surface can help keep a small hole open in the ice for oxygenation.

Remember to not place the air diffusers on the bottom of the pond during the winter, which may disrupt the natural thermocline found in the deeper portions of the pond where the fish are overwintering. Instead place the air diffusers about 1 to 1 1/2 ft. below the surface of the water.

Lighting

LED Lighting

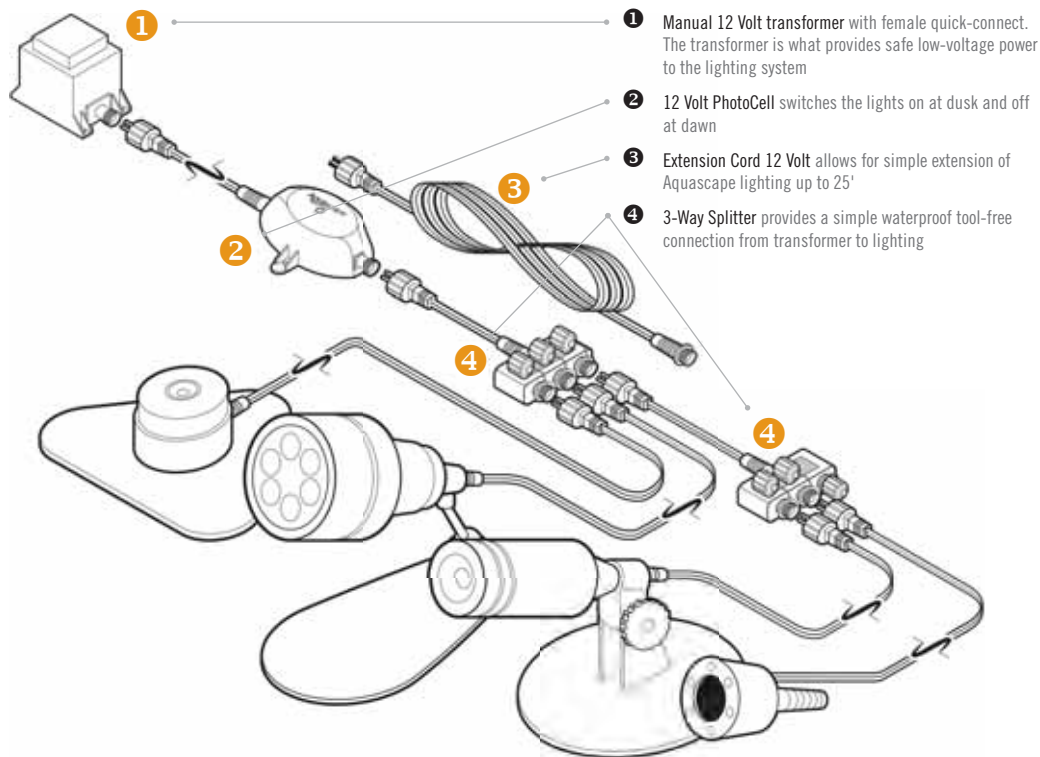

Aquascape LED light fixture designs provide a variety of nightscaping design options. Illuminate the pond above and below the surface, light a cascading waterfall from behind the falls, highlight the surface of a bubbling stream and light the trees and landscape surrounding the water feature.

- LED's save 85-90% electrical cost compared to halogen lights
- 3500 Kelvin temperature, natural-looking white light
- LEDs last 10x longer than halogens, resulting in less cost and less time replacing burned-out bulbs
- Attractive architectural bronze fixtures are designed to last for years
- Can be used in both submerged and non-submerged applications
- Includes quick-connect system or can be hard-wired

LED FOUNTAIN ACCENT LIGHT

Add a new dimension to your decorative fountain with the Aquascape LED Fountain Accent Light. This compact, round-shaped fitting retrofits almost all Aquascape fountains. The unit allows water to pass through the center of the light making for a stunning display. If you currently own an Aquascape decorative fountain that came with a plastic waterspout, this new light is completely interchangeable and can be swapped out in a few minutes. For customers currently using Aquascape lighting, the LED Fountain Accent Light is also available without transformer to retrofit within your current 12 volt quick-connect lighting system.

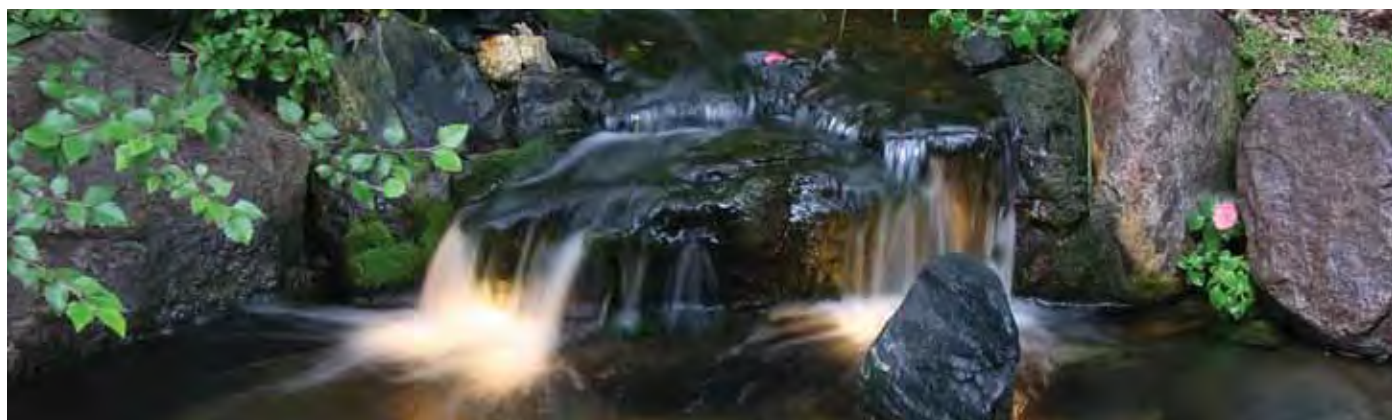

- LED Fountain Accent Lights fit, and are interchangeable with standard Aquascape decorative product connections
- The attached hose tail fits half-inch and three-quarter inch hose sizes
- Easily incorporates into standard 12 volt lighting systems
- Compatible with all Aquascape LED lighting systems
- Comes with a 15' cord length and quick-connect fittings

Maintain Balance

IMPROVED
FORMULA

Beneficial Bacteria for Ponds

Provides clean, clear and healthy water conditions and reduces pond maintenance.

Aquascape Beneficial Bacteria contains eight pure strains of concentrated beneficial bacteria. This combination of natural cleaners helps to maintain a strong biological balance in your pond.

- Blended and tested to produce maximum results in ornamental ponds
- Effective at reducing sludge, uneaten fish food, fish waste, dead and decaying plant material and excess nutrients that cause poor water quality and clarity
- Safe for fish, plants, pets and wildlife

Maintain Balance

BARLEY STRAW EXTRACT

Fermented Barley Straw Extract

Barley straw has been used for hundreds of years to promote clean clear water conditions in ponds and streams. EcoBarley™ Liquid Extract is a pharmaceutical-grade, fermented barley straw extract that has been concentrated to give you a clean clear pond. The added enzymes will help reduce pond maintenance by breaking down pond sludge and keeping filter pads cleaner.

- Provides clear, clean pond conditions
- Starts working instantly
- Concentrated formulation with added enzymes

Eliminate Algae on Contact

ECOBLAST™

Spot Treatment

EcoBlast™ Granular Algaecide is the fastest way to eliminate algae from waterfalls, streams and fountains. Simply sprinkle EcoBlast™ Granular onto the algae and watch it disappear. EcoBlast™ Granular works best when the product is applied directly on the algae.

- Eliminates algae on contact
- Fast acting
- Can be used at any water temperature
- Ideal for waterfalls and streams

NATURAL POND TINT

Tints Water a Natural Tea Color

AquaScape Natural Pond Tint is a completely non-toxic dye with added humic and tannic acids derived from natural organic compounds found in nature. These compounds will safely help keep pond water clean, clear and cool. Ideal for use in the spring, shading water from sunlight when pond plants haven't started growing and in the summer when water temperatures start to rise. Also helps reduce fish stress in spring when fish have no place to hide from the sun and predators.

- Tints pond water an attractive tea color
- Contains humic acid and enzymes
- Creates a shimmering effect
- Added enzymes help balance the pond ecosystem
- One dosage lasts up to 6 weeks

#98884 250 ml./8.5 oz. (Unit Weight: .6 lbs.)
MSRP \$14.98

#30411 4 liters/1 gal. For Professional Use
(Unit Weight: 9 lbs.)
MSRP \$99.99

BLUE POND TINT

Reformulated EcoShade™ Safely Colors Pond Water

AquaScape Blue Pond Tint is a completely non-toxic dye that will safely help keep pond water clean, clear and cool. Ideal for use in the spring shading water from sunlight when pond plants haven't started growing and in the summer when water temperatures start to rise. Also helps reduce fish stress in spring when fish have no place to hide from sun and predators.

- Tints pond water an attractive blue color
- Filters sunlight and helps cool water
- Provides shade in spring when plants are not growing
- Added enzymes help balance the pond ecosystem
- One dosage lasts up to 6 weeks

#98882 250 ml./8.5 oz. (Unit Weight: .6 lbs.)
MSRP \$14.98

POND FOAM FREE

Safely Eliminates Foam from Ponds

AquaScape Pond Foam Free will eliminate foam that will often build up near waterfalls or in areas of the pond that contain fast-moving water.

- Helps maintain the beauty of your pond
- Helps keep water clean and clear of foam
- Non-toxic, safe for birds, fish, plants or animals that may drink pond water

#98909 250 ml./8.5 oz. (Unit Weight: .6 lbs.)
MSRP \$14.98

See page 43 for treatment rate chart

Treat Fountains

FOUNTAIN MAINTENANCE

Safely Eliminates Scale and Debris Build up from Water Features

Aquascape Water Feature Maintenance will eliminate scale that will often build-up in areas of the water feature that contain fast moving water. It will also prevent the build up of debris on the surface of the fountain, without the use of acids that may damage the fountain surface.

- Helps maintain the beauty of your water feature
- Helps maintain perfect water quality
- Prevents white scale without damaging feature
- Non-toxic, safe for birds and animals

#40007 250 ml./8.5 oz. (Unit Weight: .6 lbs.)
MSRP \$19.98

FOUNTAIN FOAM FREE

Safely Eliminates Foam from Water Features

Aquascape Feature Foam Free will eliminate foam that will often build up in water features in and around fast-moving water.

- Helps maintain the beauty of your water feature
- Helps keep water clean and clear of foam
- Non-toxic, safe for birds and animals

#98908 250 ml./8.5 oz. (Unit Weight: .6 lbs.)
MSRP \$14.98

FOUNTAIN SCALE FREE

Safely Removes Calcium and Scale from Water Fountains

Aquascape Feature Scale Free will protect your ornamental fountain from damage caused by scale and stain buildup. Scale buildup can permanently damage water pumps and clog fountain plumbing.

- Helps maintain the beauty of your fountain
- Helps keep water clean and clear of hard water deposits, white scale and foam
- Water stays fresher, longer
- Adds the fresh clean scent of lavender
- Non-toxic, safe for birds and animals

#98907 250 ml./8.5 oz. (Unit Weight: .6 lbs.)
MSRP \$14.98

Maintain Container

CONTAINER WATER GARDEN MAINTENANCE TABS

Targeted Treatment for Container Water Gardens

Aquascape Container Water Garden Maintenance Tabs contain 8 pure strains of concentrated beneficial bacteria, including enzymes. This combination of natural cleaners helps to maintain a strong biological balance in your container water garden. Because ornamental water gardens are enclosed ecosystems, sometimes factors like fish load, uneaten fish food, and organics such as leaves, sludge and unwanted debris may disrupt the balance. Aquascape Container Water Garden Maintenance Tabs maintain a strong biological balance providing clean, clear and healthy water conditions.

- Keeps water clean and clear
- Helps optimize water quality
- Reduces maintenance
- Safe for fish, plants or animals that may drink pond water

#40004 36 Tabs/4 oz. (Unit Weight: .3 lbs.)
MSRP \$14.98

- Always feed koi from the same place so that fish start to recognize who you are and that you are about to feed them
- Make sure not to make sudden movements when hand feeding, as this may frighten koi
- When hand feeding, slowly place half of the food into the pond to get the fish used to coming to the surface to feed, this will also get the fish used to the smell and taste of their new treat
- Remember, whenever offering a new food, fish need a chance to recognize new shapes and smells as something to eat. Be patient and before you know it your fish will come rushing towards you to receive their delicious Aquascape Koi Krunchies treat

(Unit Weight: 1.4 lbs.)

MSRP \$24.98

COLLAPSIBLE FISH NET 17" - BLACK COARSE MESH

The 17" wide coarse, tangle-free mesh glides quickly through the water making it an ideal net for catching and handling fish. The quick-latch, telescoping handle extends to 35" and completely folds down for compact storage.

#81031 NEW Collapsible Fish Net 17" -

Black Coarse Mesh

(Unit Weight: 1.1 lbs.)

MSRP \$29.98

COLLAPSIBLE SKIMMER NET 17" - WHITE FINE MESH

The 17" wide fine, tangle-free skimmer net catches even the smallest debris, making it ideal for quick and easy removal of leaves and other debris. The quick-latch, telescoping handle extends to 35" and completely folds down for compact storage.

#81032 NEW Collapsible Skimmer Net 17" -

White Fine Mesh

(Unit Weight: 1.1 lbs.)

MSRP \$29.98

PRO FISH NET WITH EXTENDABLE HANDLE

This net is specifically designed to handle and cradle larger pond fish including koi. The super soft netting and shallow design prevents fish from being snagged in the mesh. This style of net is a must for the pond owner with larger fish.

#98561 Pro Fish Net with Extendable Handle

22" diameter head, 36" handle, extends to 69"

(Unit Weight: 2.1 lbs.)

MSRP \$34.98

NEW

FLOATING PLANT ISLAND

Display plants in deeper areas of the pond where there are no plant shelves.

Aquascape Floating Plant Island is ideal for displaying plants in deeper areas of the pond or where there are no plant shelves. The floating planter keeps the soil intact and lets water in, while protecting plants from fish. Constructed to stay afloat at the surface of the pond, the Aquascape Floating Plant Island provides stunning options for displaying plants within the pond.

#89006 NEW Floating Plant Island (Unit Weight: .4 lbs.)
MSRP \$26.98

AQUATIC PLANTERS

Aquascape Aquatic Planters are ideal for all pond plants. The fine porous material allows water in, but keeps soil from entering your pond. The flexible material makes it simple to place the plants where plastic pots will not fit. Aquatic Planters quickly blend in with the rest of the pond. Aquascape planters will not break or crack like plastic planters.

- Can be molded to fit in tight spaces
- Will not break or crack
- Keeps soil from escaping

#98501 Aquatic Plant Pot 6" x 6" (2 Pk.) (Unit Weight: .1 lbs.)
MSRP \$3.48

#98502 Aquatic Plant Pot 8" x 6" (2 Pk.) (Unit Weight: .1 lbs.)
MSRP \$4.48

#98500 Aquatic Plant Pot 12" x 8" (2 Pk.) (Unit Weight: .1 lbs.)
MSRP \$6.98

#98929 Aquatic Lily Pot 14" x 7" (2 Pk.) (Unit Weight: .1 lbs.)
MSRP \$7.98

POND PLANT FERTILIZER 10-14-8

Aquascape Pond Plant Fertilizer feeds all types of aquatic plants including waterlilies. Unlike other pond tablets that feed for only two weeks, Aquascape Pond Plant Fertilizer provides an initial quick-release of nutrients that ensure proper growth and longer lasting blooms for up to 45 days.

#98918 36 Tabs/8 oz. Pond Plant Fertilizer 10-14-8 (Unit Weight: .4 lbs.)
MSRP \$14.98

#98919 72 Tabs/16 oz. Pond Plant Fertilizer 10-14-8 (Unit Weight: .8 lbs.)
MSRP \$24.98

ONCE-A-YEAR PLANT FERTILIZER 13-13-13

Aquascape Once-A-Year Plant Fertilizer contains a complete time-released fertilizer that will help maximize plant growth and increase flower production all in one single application. Why fertilize every few weeks when you can do it once a year?

*Not for sale in the state of Florida.

#98916 500 grams/1.1 lb. Once-A-Year Plant Fertilizer 13-13-13 (Unit Weight: 1.2 lbs.)
MSRP \$19.98

#98917 3.2 kg/7 lb. Once-A-Year Plant Fertilizer 13-13-13 (Unit Weight: 7.8 lbs.)
MSRP \$109.98

POND PLANT POTTING MEDIA

All natural, non-toxic alluvial planting media. A fine-grained soil perfect for supporting your aquatic plants. Our Media contains no peat moss or compost and is safe for fish.

#89002 Pond Plant Potting Media (Unit Weight: 10 lbs.)
MSRP \$9.98

Aquatic Patio Pond

Aquascape Aquatic Patio Pond makes it simple to have a complete water garden in almost any setting. Creating a beautifully planted water bowl or container water garden has never been easier. Aquascape Aquatic Patio Pond has all the natural beauty of real rock with the added durability and light weight of fiberglass. Create a natural paradise in your backyard with Aquascape Aquatic Patio Pond.

- Light weight and durable
- Can be used indoors or outdoors
- Never fades or chips
- Natural rock veneer
- Ages like real stone
- Integrated plant shelves

AquaBasin®

Designed to take the guesswork out of installing fountain rocks, hand-carved stone, brass fountains, and bubbling urns. The AquaBasin® is a great way for anyone to quickly and easily install this popular style of water feature.

Can accommodate all Ultra™ Pumps.

AquaBasin® Features:

- Professional grade, high-density polyethylene, double walled structure gives it superior strength and weight distribution
- Extra large water capacity means less maintenance
- Pump access panels allow access for maintenance
- Pre-drilled hole in the center makes it easy to hook up plumbing
- Octagonal shape for maximum strength when backfilling and positioning decorative pieces

Video on

AquaBasin®

AQUABASIN® LARGE

- 75-gallon water storage capacity
- 18-inch diameter recess allows for larger pieces to be backfilled in order to increase stability
- Maximum weight capacity - 1,200 lbs.
- Two 9" x 16" pump access panels
- Can accommodate Magnetic Driven Ultra™ Pumps totaling up to 4,000 GPH

#98134 AquaBasin® Large (Unit Weight: 46.5 lbs.)

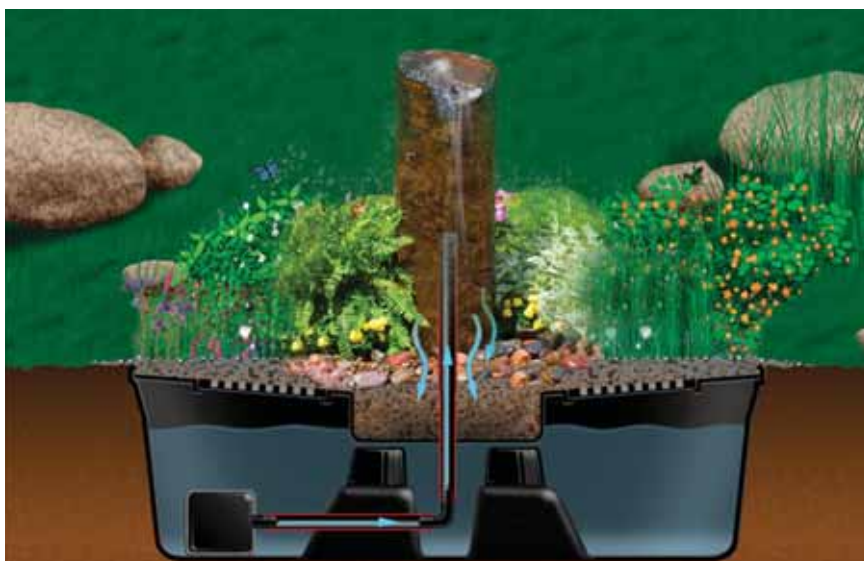

MSRP \$449.98

AQUABASIN® SMALL

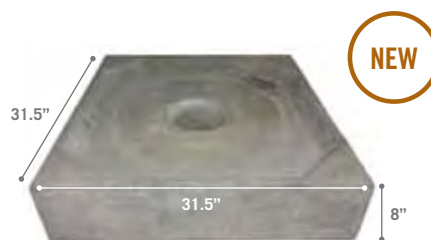

- 40-gallon water storage capacity
- Maximum weight capacity - 350 lbs.
- One 9" x 16" pump access panel
- Can accommodate Magnetic Driven Ultra™ Pumps totaling up to 2,000 GPH

#98469 AquaBasin® Small (Unit Weight: 17 lbs.)

MSRP \$259.98

Why only appreciate your water feature during the day? Adding lights can dramatically change the look of any fountain. See page 34-36.

PATIO BASIN

Allows for a decorative fountain installation above the ground.

The Aquascape Decorative Patio Basin allows for the above ground installation of decorative fountains that normally require a reservoir that would need to be dug into the ground. The above ground application allows for DIY placement into decks, patios or indoors in minutes. The low maintenance decorative deck can accommodate pebbles or rocks to add a decorative touch and create a contrasting focal point.

- 18 gallon water storage capacity
- Maximum weight capacity 100 lbs.
- Can accommodate magnetic driven Ultra Pump up to 550 GPH

#76000 NEW Patio Basin (Unit Weight: 121 lbs.)
MSRP \$349.98

FOUNTAIN SHIMS

Ideal for leveling resin, concrete or GFRC water fountains or features.

#78159 NEW Fountain Shims (Unit Weight: 1.6 lbs.)
MSRP \$3.98

DECORATIVE RIVER PEBBLES

- Easy to carry 22 lb. bags are ideal for decorative fountain applications
- Pre-washed and polished
- Two colors to choose from - Black River Pebbles and Mixed River Pebbles
- Stone dimensions — 3-5 inch diameter mix
- Each 22 lb. bag covers approximately 1.5 sq. ft. of surface

MSRP \$229.98

POURING THREE-TIER BAMBOO FOUNTAIN

Ideal for use with the Patio Pond. Includes pump and tubing.

#78015 Pouring Three-Tier Bamboo Fountain

5" L x 5" W x 15" H (Unit Weight: 2.6 lbs.)

MSRP \$79.98

DEER SCARER BAMBOO FOUNTAIN

Ideal for use with the Patio Pond. Includes pump and tubing.

#78013 Deer Scarer Bamboo Fountain

5" L x 5" W x 15" H (Unit Weight: 2.6 lbs.)

MSRP \$79.98

Adjustable width allows for use with different size patio ponds

ADJUSTABLE POURING BAMBOO FOUNTAIN

Ideal for use with the Patio Pond. Includes pump and tubing.

#78014 Adjustable Pouring Bamboo Fountain

5" L x 5" W x 15" H

Extends from 18" - 30"

(Unit Weight: 3.5 lbs.)

MSRP \$79.98

AQUAROCK SANDSTONE KIT

Stone size and quantity may vary.

#97068 AquaRock Sandstone Kit

12" diameter x 14.5" H

(Approx. Unit Weight: 45 lbs.)

MSRP \$59.98

AQUAROCK BLUE STONE KIT

Stone size and quantity may vary.

#97067 AquaRock Blue Stone Kit

12" diameter x 14.5" H

(Approx. Unit Weight: 45 lbs.)

MSRP \$59.98

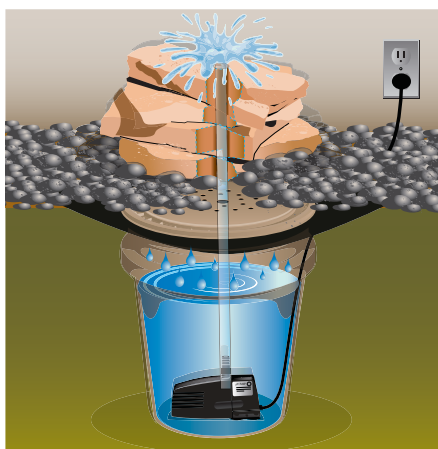

KIT COMPONENTS

Includes:

- Five gallon bucket (water basin) and perforated lid
- Water pump with 20' power cord
- Water hose
- Lid liner skirt
- Drilled rock stack

DIAGRAM

IN-GROUND INSTALLATION

1. Dig. Dig out the appropriate amount of soil to bury the bucket

2. Place. Place the bucket into the hole you have created

3. Decorate. Add gravel or decorative pebbles to cover the liner and bucket lid

4. Enjoy. Fill the bucket with water and plug in the pump. Enjoy your new water feature!

Please Note: The AquaRock Fountain Kit does not include decorative gravel or pebbles.

Winterization

NEW

BLUE HERON DECoy

Deters herons from coming to your pond by tricking them into thinking another heron is already there.

- Looks life-like!
- Quick and easy set-up—includes mounting stake
- Hand-painted with non-fading, non-glare, all weather paint
- Surface treated to prevent paint flaking
- Molded from durable lightweight polymer
- Bird and stake measures 29" L x 7.5" W x 43" H

#81030 NEW Blue Heron Decoy

29" L x 7.5" W x 43" H

(Unit Weight: 3 lbs.)

MSRP \$39.98

FLOATING ALLIGATOR DECoy

Add a little fun to your pond while protecting your valuable fish. The natural body movement will deter herons and other predators from visiting your pond.

- Safely deter pond predators
- Three hinged body parts allow gator to float freely and lifelike
- Natural body movements deter pond predators

#93000 Floating Alligator Decoy

(Unit Weight: 2.7 lbs.)

MSRP \$39.98

NEW

POND THERMOMETER

Monitor pond temperature throughout the year to aid in adjusting fish feeding schedule and water treatment applications during seasonal changes.

#74000 NEW Pond Thermometer

(Unit Weight: 0.2 lbs.)

MSRP \$7.98

300-WATT POND DE-ICER

Aquascape stainless steel Pond De-icer is ideal for keeping a small hole opening the ice during cold winter months, and insures proper gas exchange helping keep fish alive during the winter.

- Prevents winter fish loss
- Keeps a small hole in the ice during winter months
- Helps increase pond oxygen levels
- Stainless steel construction prevents corrosion and cracking
- Low cost to operate
- Built-in LED light indicates when heater is in use

#39000 300-Watt Pond De-Icer

(Unit Weight: 3 lbs.)

MSRP \$119.98

- ① High quality stainless steel housing
- ② LED light indicates when the unit is operating
- ③ 22 foot power cord

Video on

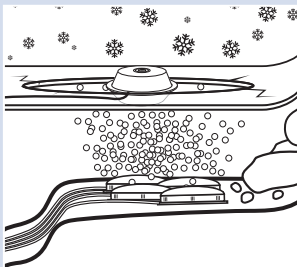

Pond De-Icer

AERATION

The Pond Aerator can also be used during the winter months where the bubbles created at the surface can help keep a small hole open in the ice for oxygenation.

See pages 32 and 33 for more information on the Pond Aerators

The Pond Aerators can also be used during the winter months where the bubbles created at the surface can help keep a small hole open in the ice for oxygenation.

AQUAFORCE® SOLIDS HANDLING WATERFALL PUMPS

The fact that the AquaForce® can be submerged directly in the pond also makes it a great pump to be used as a winter de-icer. The AquaForce's powerful flow of water positioned just below the surface of the pond will keep a hole open in the ice and ensure critical oxygen levels are maintained in the pond during the cold winter months.

See pages 26 and 27 for more information on the AquaForce®

AquaForce® Pumps are great for keeping a hole open in the ice during the winter.

Installation Tools

Water Fill Valves

Aquascape Water Fill Valves automatically add water to the feature when needed

- Reduces time consuming maintenance manually filling with a hose
- Helps protect pump from running dry
- Better for the ponds ecosystem by adding small amounts of water as needed, eliminating large water chemistry swings that occur during top-offs, including chlorine/chloramine levels

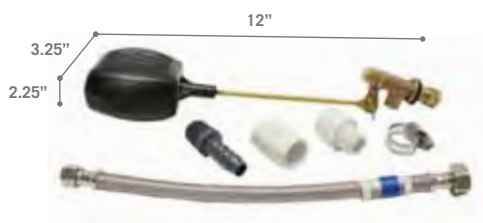

COMPACT WATER FILL VALVE

- Up to 1.5 gallons per minute flow rate at a working pressure of 0-100 PSI
- Small size allows it to fit into any skimmer filter, Pondless® Waterfall Vault or decorative water feature application
- Includes fittings to connect to a standard garden hose, 1/4" poly-pipe, 1/2" poly-pipe, 1/2" pvc pipe

#88006 NEW Compact Water Fill Valve

(Unit Weight: .3 lbs.)

MSRP \$29.99

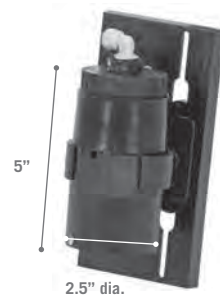

WATER FILL VALVE 200

- Up to 3 gallons per minute flow rate at a working pressure of 0-100 PSI
- Reliable mechanical arm style fill valve
- Brass hardware with poly float
- Includes fittings to connect to 1/2" poly-pipe or 1/2" pvc pipe

#29272 Water Fill Valve 200 (Unit Weight: .7 lbs.)

MSRP \$39.98

HUDSON WATER FILL VALVE

- Up to 1.5 gallons per minute flow rate at a working pressure of 8-65 PSI
- Works great in the Signature Series™ Skimmers and the Pondless® Waterfall Vault
- Mounting plate allows 4-inch setting adjustments
- Includes quick-connect fitting for 1/4" poly pipe
- Can also be used with 1/2" poly or 1/2" pvc by using the Fill Valve Irrigation Conversion Kit (Item #01008)

#29469 Hudson Water Fill Valve (Unit Weight: 1.2 lbs.)

MSRP \$79.99

AQUASCAPE WATER FILL VALVES SPECS

ECONOMY FOAM GUN APPLICATOR

We've added an economy model of our popular professional-grade Foam Gun. This lower-priced Foam Gun provides an attractive price point so that all contractors, no matter how many features they build, can afford to add a foam gun to their pond-building tool kit. To be used with Black Waterfall Foam cans.

#54003 Economy Foam Gun Applicator
(Unit Weight: 1.1 lb.)
MSRP \$42.99

PROFESSIONAL FOAM GUN KIT

Includes everything needed for Professional Waterfall Foam application in a durable custom fit toolbox. Professional Foam Gun applicator allows exact dispersion of expanding black foam for sealing waterfalls.

Kit includes:

- (1) Case
- (3) 24 oz. Cans Black Waterfall Foam
- (1) Professional Grade Foam Gun
- (1) Can Cleaner

#22013 Foam Gun Kit
Replacement Gun available
(Unit Weight: 13.5 lbs.)
MSRP \$339.99

DO-IT-YOURSELF BLACK WATERFALL FOAM

Easy to use for the beginner or do-it-yourselfer. Convenient and economical for the quick touch-up on a larger project. Also sold as part of our installation kit.

#21053 DIY Waterfall - Black
(Unit Weight: 1.2 lbs.)
MSRP \$19.98

BLACK WATERFALL FOAM

24 oz. can of expandable Black Waterfall Foam. Equivalent to 5 Do-it-Yourself Black Waterfall Foam cans. To be used with foam guns (sold separately).

#30096 Black Waterfall Foam
(Unit Weight: 2.2 lbs.)
MSRP \$29.99

INSTALLATION KIT

Includes liner patch, PVC glue, tube of silicone and 16 oz. can of Do-it-Yourself Black Waterfall Foam. Individual kit items may be purchased separately. See items on these pages for details.

#22008 Installation Kit
(Unit Weight: 2.2 lbs.)
MSRP \$29.99

CHRISTY'S RED HOT BLUE GLUE

The original all-weather, wet or dry PVC cement.

#29969 Christy's Red Hot Blue Glue
(Unit Weight: .4 lbs.)
MSRP \$7.99

BLACK SILICONE SEALANT

- Used for sealing joints where liner attaches to biofilter snout and the skimmer faceplate
- Fish Safe

#22010 4.7 oz. Black Silicone
(Unit Weight: .4 lbs.)
MSRP \$5.98

#29186 10.1 oz. Black Silicone
(Unit Weight: .6 lbs.)
MSRP \$9.99

FOAM GUN CLEANER

A handy cleaner to flush the foam gun clean if it is not working properly. It will also remove uncured foam.

#22011 Foam Gun Cleaner
(Unit Weight: 1.1 lbs.)
MSRP \$29.99

EPDM LINER COVER TAPE (one sided)

#22003 6 in. x 25 ft. Roll Cover Tape
(Unit Weight: 5.8 lbs.)
MSRP \$119.99

#22005 6 in. x 100 ft. Roll Cover Tape
(Unit Weight: 20 lbs.)
MSRP \$249.99

EPDM LINER SEAM TAPE (two sided)

#22017 3 in. x 25 ft. Roll Double Sided Seam Tape (Unit Weight: 1.5 lbs.)
MSRP \$49.99

#22020 3 in. x 100 ft. Roll Double Sided Seam Tape
(Unit Weight: 7.8 lbs.)
MSRP \$129.99

EPDM LINER PATCH

This 6" self adhesive patch quickly repairs accidental cuts in liner without messy patch kits.

#22018 EPDM Liner Patch
(Unit Weight: .1 lb.)
MSRP \$7.98

EPDM LINER SEAMING TAPE PRIMER

Cleans and prepares liner for seaming.

#87006 EPDM Liner Seaming Tape Primer
(Unit Weight: 1.3 lbs.)
MSRP \$19.99

Check Valves

AQUASCAPEPRO® CHECK VALVES

A check valve assembly is needed to connect your pump to the pond plumbing. Aquascape's dual union check valves have a removable connection underneath the check valve which allows you to disconnect the pump and plumbing without draining the water in your BioFalls® Filter (not included in #29500 Plumbing Assembly). See descriptions and chart below to determine which check valve assembly fits your project.

| AQUASCAPEPRO® CHECK VALVES | | | | | |

MSRP \$49.00

GEOTEXTILE UNDERLAYMENT

This soft, polyethylene fabric will last 20+ years under your liner. It is a 3-dimensional underlayment that allows gas to escape. It has a non-slippery surface and provides protection for the liner from rocks and other sharp objects, spreads easily. This is a non-woven, needle-punched Geotextile.

#30300 5' x 300' Underlayment Roll (Unit Weight: 59 lbs.)

MSRP \$329.99

#29169 15' x 300' Underlayment Roll (Unit Weight: 200 lbs.)

MSRP \$899.99

#29170 7.5' x 600' Underlayment Roll (Unit Weight: 175 lbs.)

MSRP \$899.99

Why Rainwater Harvest?

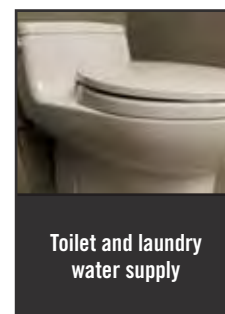

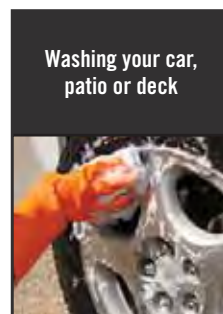

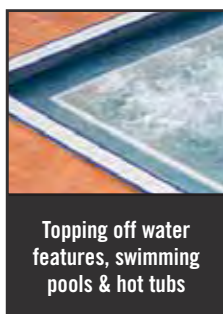

The RainXchange® System is a sustainable solution for water conservation and stormwater management

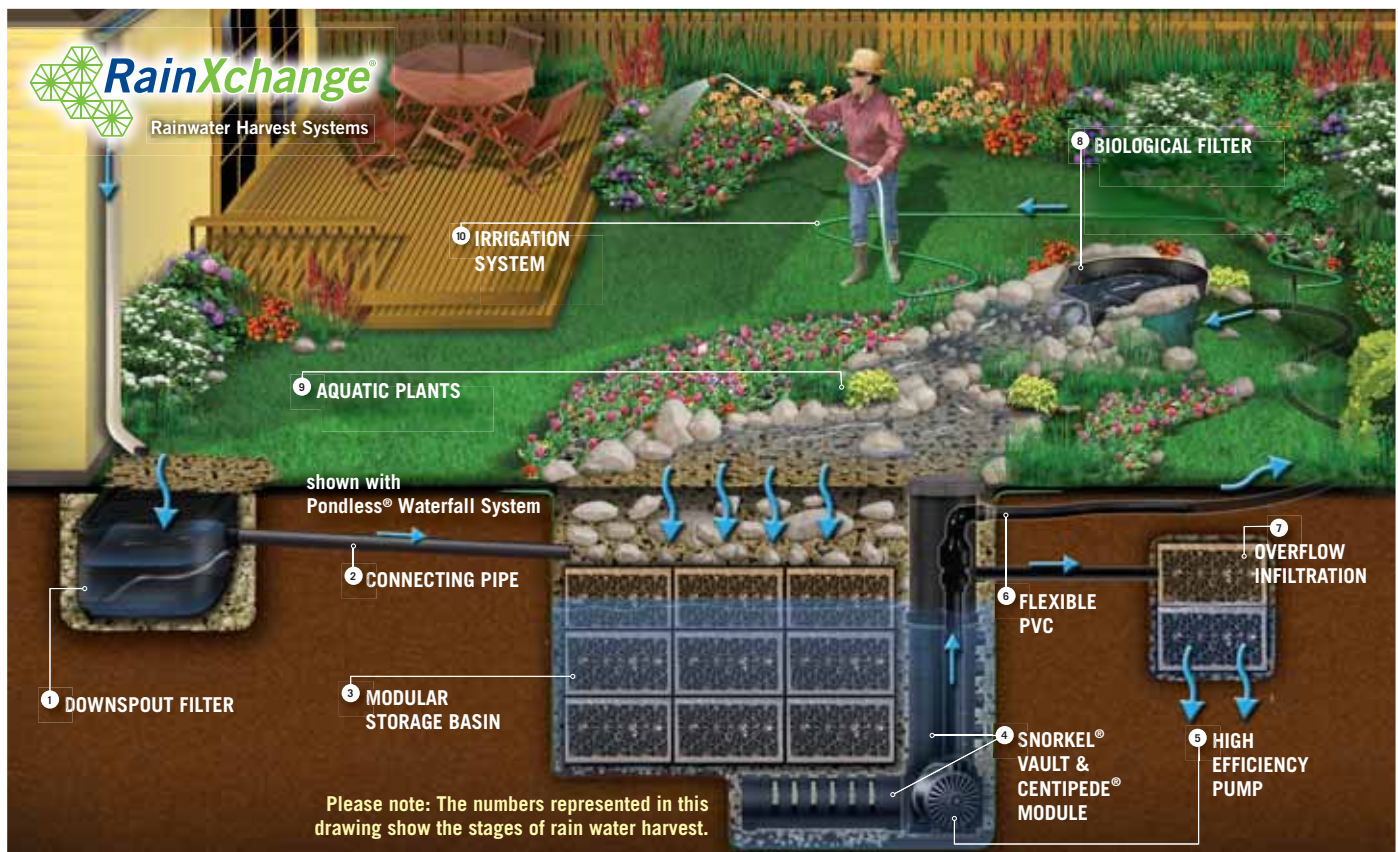

The RainXchange® System by Aquascape is a revolutionary design that combines a recirculating decorative water feature with a sub-surface rainwater harvest storage system.

- **Clean, Filtered Water Storage** - While you enjoy the benefits of a decorative water feature, the RainXchange® System filters the stored water providing access to clean, clear, usable water.
- The RainXchange® System reveals only a **beautiful water feature** that integrates easily into existing landscapes.
- Locating and **storing water underground** maintains the integrity and beauty of your home and landscape.
- Capturing rainwater to operate the water feature **creates true self-sustainability**, drastically reducing the need for traditional water sources.

How Can You Use The Rainxchange® System?

How The Rainxchange® System Works:

Video on

Rainwater
Harvesting

- 1 DOWNSPOUT FILTER**
Captures and removes pollutants flushed into the system during a rain event
- 2 CONNECTING PIPE**
Carries the water, via gravity, to the modular storage basin (sold separately)
- 3 MODULAR STORAGE BASIN**
Modular design can be configured to fit a wide variety of applications and settings. EPDM rubber membrane creates a water-tight basin
- 4 SNORKEL® VAULT & CENTIPEDE® MODULE**
Optimum water utilization within the system and a convenient access point for yearly maintenance and cleaning
- 5 HIGH-EFFICIENCY PUMP**
- 6 FLEXIBLE PVC PIPE**
- 7 OVERFLOW INFILTRATION**
Excess rainwater is sent to a storage area that facilitates the infiltration of water into deeper soils and aquifers
- 8 BIOLOGICAL FILTRATION**
Beneficial bacteria and enzymes reduce organic waste and pollutants to less toxic substances that can be absorbed by plants
- 9 AQUATIC PLANTS**
Providing food and shelter for a great number of birds, insects and amphibians and the cornerstone for maintaining biodiversity
- 10 IRRIGATION SYSTEM**
Natural water is loaded with micronutrients and compounds that will make plants flourish

RainXchange® Systems

With our easy-to-use, prepackaged RainXchange™ System Kits, you have the flexibility to choose the water storage size and decorative style that suits you! Simply follow the step-by-step selection chart to determine the products required to complete your RainXchange™ System.

1 CHOOSE THE RAINXCHANGE® SYSTEM WATER STORAGE KIT

RainXchange® Water Storage Kits

Each RainXchange® Water Storage Kit Includes: AquaBlox®, 45 mil EPDM rubber liner membrane, and two panels of non-woven geotextile underlayment (one to surround the AquaBlox® and one to surround the exterior of the EPDM rubber liner).

500 GALLON WATER STORAGE KIT

- Basin Size: 6' x 9' x 4'
- 16 - AquaBlox® - Single Stacked
- 15' x 20' Liner and Underlayment
- Pondless® Waterfall Vault Extension

#30097 500 Gallon Water Storage Kit (Unit Weight: 393 lbs.)
MSRP \$1,133.46

1000 GALLON WATER STORAGE KIT

- Basin Size: 6' x 9' x 5'
- 32 - AquaBlox® - Double Stacked
- 20' x 25' Liner and Underlayment
- Four Pondless® Waterfall Vault Extensions

#30099 1000 Gallon Water Storage Kit (Unit Weight: 690 lbs.)
MSRP \$2,307.73

1500 GALLON WATER STORAGE KIT

- Basin Size: 8' x 9' x 5'
- 48 - AquaBlox® - Double Stacked
- 25' x 25' Liner and Underlayment
- Four Pondless® Waterfall Vault Extensions

#30102 1500 Gallon Water Storage Kit (Unit Weight: 978 lbs.)
MSRP \$3,140.61

2000 GALLON WATER STORAGE KIT

- Basin Size: 9' x 11' x 5'
- 64 - AquaBlox® - Double Stacked
- 25' x 30' Liner and Underlayment
- Four Pondless® Waterfall Vault Extensions

#30105 2000 Gallon Water Storage Kit (Unit Weight: 1245 lbs.)
MSRP \$3,973.49

2500 GALLON WATER STORAGE KIT

- Basin Size: 11' x 12' x 5'
- 80 - AquaBlox® - Double Stacked
- 25' x 30' Liner and Underlayment
- Four Pondless® Waterfall Vault Extensions

#30108 2500 Gallon Water Storage Kit (Unit Weight: 1510 lbs.)
MSRP \$4,597.37

3000 GALLON WATER STORAGE KIT

- Basin Size: 9' x 11' x 6'
- 96 - AquaBlox® - Triple Stacked
- 25' x 30' Liner and Underlayment
- Six Pondless® Waterfall Vault Extensions

#30112 3000 Gallon Water Storage Kit (Unit Weight: 1670 lbs.)
MSRP \$5,237.25

2 CHOOSE YOUR WATER FEATURE. A DECORATIVE FOUNTAIN OR A PONDLESS® WATERFALL

Decorative Fountains

Select from a number of decorative bubbling urns and stone fountains from Step 3 that sit on top of the RainXchange® Water Storage System. The water spills over the top of the decorative piece and flows back down into the RainXchange® Water Storage System where it is re-circulated.

DECORATIVE FOUNTAIN PUMP AND VAULT COMPONENTS

- Pondless® Waterfall Vault
- Downspout Filter (additional units may be purchased separately)
- AquaSurge® PRO 2000-4000 High Efficiency Pump
- Decorative Fountain Component Bag
- ¾" x 25' Kink-Free Pipe
- Overflow Kit

#44000 Decorative Fountain Pump and Vault Components (Unit Weight: 129 lbs.)
MSRP \$952.13

OR

Pondless® Waterfall

This water feature is made up of a waterfall or stream that flows and then disappears gracefully into the gravel.

PONDLESS® WATERFALL VAULT AND PUMP COMPONENTS

- Pondless® Waterfall Vault
- Downspout Filter (additional units may be purchased separately)
- AquaSurge® PRO 2000-4000 High Efficiency Pump
- Pondless® Waterfall Check Valve
- Overflow Kit
- 10' x 20' Stream Liner
- 2" x 25' Flex PVC
- Installation Kit
- LED Lighting Package
 - Two - 1-Watt 12 Volt LED Waterfall Light
 - 60-Watt Transformer w/Photocell
 - 3-Way Splitter and 25' LVL Extension Cable

#44001 Pondless® Waterfall Pump and Vault Components (Unit Weight: 126 lbs.)
MSRP \$1,557.74

3 CHOOSE THE DECORATIVE FOUNTAIN OR PONDLESS® WATERFALL FILTER

#98503 Natural Mongolian Basalt Column
12" diameter x 30" H
(Approx. Unit Weight: 335 lbs.)

#58062 3 Natural Mondolian Basalt Columns
1 - 24", 30" & 36" column
(Approx. Unit Weight: 79 lbs.)

#98264 3 Semi-Polished Stone Basalt Columns
1 - 12", 20" & 27" column
(Approx. Unit Weight: 289 lbs.)

#78033 Classic Greek Urn Fountain - XLg
15.7" L x 15.7" H x 37.4" W
(Unit Weight: 55.8 lbs.)

#78035 Textured Ripple Fountain - XLg
15.7" L x 15.7" H x 37.4" W
(Unit Weight: 55.8 lbs.)

#78037 Modern Classic Fountain - XLg
15.7" L x 15.7" H x 37.4" W
(Unit Weight: 51.4 lbs.)

Need Help with Your Design? Utilize the RainXchange® Specification Calculator at www.rainxchange.com to determine the water storage requirements for your project or call our Technical Department at **877.766.3489 (U.S.)** or **1.866.766.3426 (CAN)** and let one of our Technical Agents help you estimate your next project.

Water Supply Products

The RainXchange® System is an ideal partner for a wide range of irrigation solutions. From basic hand-watering through a garden hose or using it in combination with a professionally designed irrigation system, the flexibility of the RainXchange® System provides a sustainable water supply solution that will meet the requirements of your next project.

Aquascape offers several pump and plumbing options for general hand-watering and basic irrigation applications. We recommend consulting with Aquascape's Technical Service Department or a professional irrigation designer to determine the irrigation options that are best suited for your project.

BOOSTER PUMPS

A simple pumping solution that provides access to the water for general hand-watering and basic irrigation.

- The Booster Pump is designed to increase the water pressure for basic irrigation.
- Booster Pumps are external, non-submerged pumps.
- The Booster Pump fitting kit includes pipe and a number of fittings to plumb the system for basic irrigation supply.

Booster Pump

#30084 Booster Pump 1/4 HP (Unit Weight: 16.3 lbs.)
MSRP \$469.99

#30085 Booster Pump 1/2 HP (Unit Weight: 19.6 lbs.)
MSRP \$529.99

#30094 Pondless® Booster Fitting Kit
(Unit Weight: 6 lbs.)
MSRP \$69.99

#30170 Decorative Booster Fitting Kit
(Unit Weight: 6 lbs.)
MSRP \$69.99

Booster Pump Plumbing Kit

RAINXCHANGE® WATER MAKE-UP SYSTEM

A simple solution for adding tap-water into the RainXchange® basin during low water levels ensuring a continuous supply of water. Can be attached to an outdoor spigot or professionally plumbed into a water supply line.

This design meets local codes for high hazard connections by utilizing an air-gap to direct municipal make-up water through the water storage basin. Includes: Water Feed Float Switch (also sold separately), Irrigation Valve, 24-volt low-voltage transformer and low-voltage cable. Plumbing not included.

#30390 Water Make-up System (Unit Weight: 3.5 lbs.)
MSRP \$99.99

WATER FEED FLOAT SWITCH

Specially designed doser-style float switch signals an irrigation valve to open and add tap water during low water levels in the RainXchange® storage basin. Located in the lower portion of the Snorkel Vault. Requires irrigation valve, transformer, and plumbing.

#30386 Water Feed Float Switch (Unit Weight: 1.2 lbs.)
MSRP \$39.99

DOWNSPOUT FILTER

A successful rainwater harvesting project relies on properly pre-filtering the rainwater before it enters the storage reservoir.

- **First Stage in Properly Filtering Rainwater** - The Downspout Filter is installed at the base of the downspout ready to capture and remove a variety of debris that may be flushed into the system during a rain event. Incoming rainwater is passed through a series of mechanical filters that remove leaves, twigs, seeds, and small sediment that accumulate on the surface of the roof between rain events.
- Utilize our online **RainXchange® Calculator** to determine how many Downspout Filters your project will require.
- Add a downspout filter onto a water feature and use rainwater to top off the water level.
- Handles up to a **1,500 sq. ft. roof** and more than 50 gallons per minute flow rate.

#30166 Downspout Filter

(Unit Weight: 10 lbs.)

MSRP \$199.99

#30095 Replacement Debris Net for Downspout Filter

(Unit Weight: .3 lbs.)

MSRP \$49.99

Not only for
RainXchange®
Systems!
Add a downspout filter to
any water feature
and make it
sustainable!

Professionals Program

*Aquascape's Downspout
Filter is buried out of sight at
the base of the downspout.*

Discover The Beauty of Rainwater Harvesting

Who says it has to be an eyesore?

The RainXchange® Rain Barrel has a planter lid for flowers and the water harvested is healthier for your plants.

Features:

- Large 75-gallon capacity!
- 5-year warranty
- Requires no electricity
- Large safety overflow keeps water in the barrel or away from the house
- Lid can also be used as a planter
- Thick plastic walls are durable and will withstand extreme conditions
- Childproof lockable lid
- Brass spigot for garden hose connection
- Made in the U.S.A.

Benefits:

- **It's Simple.** The RainXchange® Rain barrel can be incorporated into existing gutter and drainage systems.
- **It's Responsible.** Water restrictions do not apply to rain barrels. Storing rain water allows you to keep gardens growing during watering restrictions and reduces the burden for municipal water.
- **It's Beneficial.** Rainwater is better for plants than municipally treated water.

#98766 Terra Cotta Rain Barrel

(Unit Weight: 30 lbs.)

MSRP \$249.98

#98767 Sandstone Rain Barrel

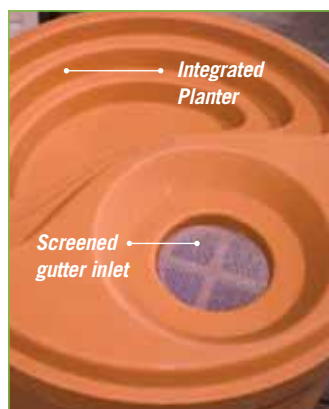

(Unit Weight: 30 lbs.)

MSRP \$249.98

Video on

Rain Barrel

Available in Sandstone (right) or Terra Cotta (below)

The RainXchange™ Rain Barrel can be incorporated into existing gutter and drainage systems.

Integrated planter helps naturalize the Rain Barrel into the landscape design.

AVAILABLE
MAY 2013

water features designed for paver applications

add a splash of water to any traditional paver hardscape

bubbling fountains

Aquascape Bubbling Fountains allow you to incorporate the sight and sound of bubbling water into any paver patio or walkway. Choose from a pre-designed, hand-cut, stone Bubbling Fountain or create your own custom design using the Bubbling Center Stone.

bubbling fountain kits

The Bubbling Fountain Kits combine all of the required components into a convenient kit that saves you time and money.

Create Your Own Bubbling Center Stone

Kit includes:

- Bubbling Center Stone
- Fountain Accent Light with Transformer
- Medium AquaBasin®
- Ultra™ Pump with Plumbing Components
- Item #58069

Pre-Designed Bubbling Fountain

Kit includes:

- Pre-Designed Bubbling Fountain
- Fountain Accent Light with Transformer
- Medium AquaBasin®
- Ultra™ Pump with Plumbing Components
- Item #58070

AVAILABLE
MAY 2013

waterfall spillways

Incorporate beautiful, low-maintenance waterfalls into any hardscape design using Aquascape's Stainless Steel Waterfall Spillway

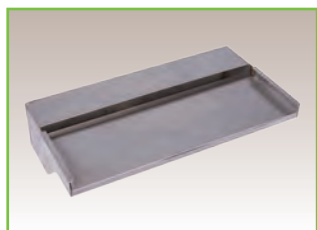

waterfall spillway kit

The Waterfall Spillway Kit combines all of the required components into a convenient kit that saves you time and money.

Kit includes:

- 16" Stainless Steel Waterfall Spillway
- Medium AquaBasin® with Splash Pad
- Ultra™ Pump with Plumbing Components
- Compact Water Fill Valve
- Item #58080

■ Stainless Steel Waterfall Spillway

- Stainless steel for strength and corrosion resistance
- Won't crack or have to be removed in the winter like acrylic-style spillways
- Clog-free, open-top design reduces maintenance

16" Stainless Steel Waterfall Spillway - #58066

Dimensions: 16" wide spillway, 5" spillway lip, 1" plumbing port

■ Bubbling Fountains

Two options to choose from:

A) Pre-designed, hand-cut stone Bubbling Fountain - 4 pre-assembled panels lay into place on top of the Medium AquaBasin®

Pre-designed 30" x 30" Bubbling Fountain - #58079

Dimensions: 30" x 30" x 1" thick, comes in 4 panels and includes center-cored bubbling stone

B) Create Your Own Paver Bubbling Center Stone - For use when designing custom Bubbling Fountains using any permeable paver combination

Create Your Own Bubbling Center Stone - #58081 Dimensions: 12" x 12" x 2.75" thick

■ Medium AquaBasin®

The new medium sized AquaBasin® is designed to be used as a water basin for the Stainless Steel Waterfall Spillway applications and Paver Bubbling Fountains projects.

- Large volume 40-gallon water capacity
- Durable roto-molded basin designed to withstand freezing in cold climates
- Works great with the 16" Stainless Steel Waterfall Spillway on paver retaining wall water features
- Basin deck includes support ridges that provide a level surface for Paver Bubbling Fountains and water flow channels for proper circulation

Medium AquaBasin® - #76004 Dimensions: 24" x 24" deck, 16" high basin, 40-gallon capacity

■ Ultra Pumps™

Ultra™ Pumps are the complete pumping solution for small ponds, fountains and water features.

- Extremely energy-efficient, saving hundreds of dollars over traditional pumps
- Magnetically-driven (Mag Drive) motor technology is simple and easy to maintain
- Durable pre-filter cage reduces pump maintenance

■ Accessories

Fountain Accent Light - #84009

- Allows water to pass through the center of the light creating a stunning display
- Easily incorporates into standard 12 volt lighting systems
- Includes transformer

Compact Water Fill Valve - #88006

- Up to 1.5 gallons per minute flow rate at a working pressure of 0-100 PSI
- Includes fittings to connect to a standard garden hose, 1/4" poly-pipe, 1/2" poly-pipe or 1/2" pvc pipe
